| <b>Course language:</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                          |

**Notes:**

Content of lessons will be flexibly adapted to the field of study of learners. Language learners will be able to work more with pictures and sounds, physicists with simulation programs, mathematicians with mathematical software, etc.

**Course assessment**

Total number of assessed students: 43

| A     | B     | C     | D   | E    | FX  |
|-------|-------|-------|-----|------|-----|
| 58.14 | 23.26 | 16.28 | 0.0 | 2.33 | 0.0 |

**Provides:** doc. RNDr. Ľubomír Šnajder, PhD.

**Date of last modification:** 03.05.2015

**Approved:** doc. PhDr. Anna Džambová, PhD., prof. PhDr. Oľga Orosová, CSc., Doc. Dr. Jörg Meier

| <b>Prerequisites:</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                             |
| <b>Conditions for course completion:</b><br>assessment (H) - test                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                             |
| <b>Learning outcomes:</b><br>Students will familiarize themselves with selected country-related topics, realize common features and differences between their own culture and cultures in German speaking countries. By working with authentic texts and secondary literature, students will understand causes and connections of studied phenomena in German speaking countries culture. Acquired knowledge will enable students to better understand concepts from different areas of life presented in media and culture of Germanophone countries.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                                             |
| <b>Brief outline of the course:</b><br>The content of the course is based on comparison of studies of Slovakia and German speaking countries from the following aspects <ul style="list-style-type: none"> <li>- Physical geography</li> <li>- Political structure, characteristics of individual regions</li> <li>- Political system, institutions, parties, representatives, civil initiatives</li> <li>- Famous personalities from science, engineering, economics and culture</li> <li>- Society: demography, social classes, preferred values, extended behavioural patterns, life goals of young people, immigrants and their integration, the role of church and religious societies</li> <li>- Education: system of schools and universities, priorities, problems and perspectives of university education, possibilities of study mobilities in German speaking countries</li> <li>- Economics, dominant economic sectors, economic geography, economic policy lines, labour market development, unemployment and its dimensions</li> <li>- Media and contemporary media discourse</li> <li>- Language and its varieties</li> <li>- Culture: Music, Theatre, Film</li> </ul> |                                             |

| <b>Prerequisites:</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                         |
| <b>Conditions for course completion:</b><br>2 tests plus continuous assessment of activity and preparedness during exercises. Three absences maximally are allowed on labs. Maximum of 100 points consists of max 40 points for continuous assessment and max 60 for final assessment. Combined exam (theory + practical solving of examples). To be allowed to take an exam, a student must obtain at least 20 points from continuous assessment.                                                                                                                                                                                                                                                                      |                                                         |
| <b>Learning outcomes:</b><br>The aim of the subject is to make students understand the purpose of using of statistical methods in practice, to learn theoretical background and become able to apply them in practical situations.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                         |
| <b>Brief outline of the course:</b><br>meaning, structure and nature of statistical methods – graphic and numerical representation of data files – determination of nature and closeness between the variables – probability – its character, determination and meaning in statistics – statistical judgment (hypotheses and algorithms) – difference statistics: parametric and non-parametric                                                                                                                                                                                                                                                                                                                         |                                                         |

| <b>Learning outcomes:</b><br>Learning outcomes:<br>Increasing physical condition and performance within individual sports. Strengthening the relationship of students to the selected sports activity and its continual improvement.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                          |
| <b>Brief outline of the course:</b><br>Brief outline of the course:<br>Within the optional subject, the Institute of Physical Education and Sports of Pavol Jozef Šafárik University provides for students the following sports activities: aerobics, basketball, badminton, floorball, yoga, pilates, swimming, body-building, indoor football, self-defence and karate, table tennis, sports for unfit persons, streetball, tennis, and volleyball.<br>In the first two semesters of the first level of education students will master basic characteristics and particularities of individual sports, motor skills, game activities, they will improve level of their physical condition, coordination abilities, physical performance, and motor performance fitness. Last but not least, the important role of sports activities is to eliminate swimming illiteracy and by means of a special program of medical physical education to influence and mitigate unfitness.<br>In addition to these sports, the Institute offers for those who are interested winter and summer physical education trainings with an attractive program and organises various competitions, either at the premises of the faculty or University or competitions with national or international participation. |                                          |

| <b>Learning outcomes:</b><br>To acquire an overview of the current possibilities of digital technology to develop skills and competencies with emphasis on the area of communication, social interaction and personal. To acquire basic digital skills for working with advanced technologies (mobile phone, tablet, laptop, social media, online webtechnologies). To understand the value of existing advanced technologies for better and more effective learning, work and active life in higher education, lifelong learning and further career prospects.                                                                                                                                                                                  |                                                |
| <b>Brief outline of the course:</b><br>Introduction to the problems of current, commonly available digital technology. Tools for access to online information source (mobile applications for access to information systems, databases, data books). Tools for collecting, generating direct information and data and its subsequent analysis and visualization. Tools for providing and sharing of electronic content (cloud technology - Google Drive, Youtube, Google+, Skydrive, Dropbox). Tools for communication, discussion and collaborative activities. Legal work with digital technologies and resources, plagiarism, critical evaluation of digital resources. Security, privacy, digital ethics and etiquette, digital citizenship. |                                                |

| <b>Learning outcomes:</b><br>Learning outcomes:<br>Students will be familiarized with principles of safe stay and movement in extreme natural conditions as they will obtain theoretical knowledge and practical skills to solve the extraordinary and demanding situations connected with survival and minimization of damage to health. The course develops team work and students will learn how to manage and face the situations that require overcoming of obstacles.                                                                      |                                     |
| <b>Brief outline of the course:</b><br>Brief outline of the course:<br>Lectures:<br>1. Principles of behaviour and safety for movement and stay in unknown mountains<br>2. Preparation and leadership of tour<br>3. Objective and subjective danger in mountains<br>4. Principles of hygiene and prevention of damage to health in extreme conditions<br>Exercises:<br>1. Movement in terrain, orientation and navigation in terrain (compasses, GPS)<br>2. Preparation of improvised overnight stay<br>3. Water treatment and food preparation. |                                     |

| <b>Conditions for course completion:</b><br>participation in seminars, regular preparation for seminars; final exam (summary exam from morphology and syntax of the German language) consists of written test verifying the theoretical and practical knowledge                                                                                                                                                                                                                                                                                                                                                                                                         |                                          |
| <b>Learning outcomes:</b><br>Students can, both in individual sentences and in longer texts, explain position of constituents in different types of German sentences and are familiar with specific features of compound sentences in the German language, with particular attention paid to subordinate clauses. After completing the course, students can analyse German individual sentences and sentences in longer texts in terms of traditional and dependency syntax.                                                                                                                                                                                            |                                          |
| <b>Brief outline of the course:</b><br>- sentence (definitions, constituents, word order)<br>- modifier (syntactic and semantic description)<br>- types of sentences in German<br>- sentence models<br>- compound sentences in German language (general principles, coordination and subordination types):<br>- subordinate sentences (frequent types of subordinate sentences – relative clauses, clauses of purpose, clauses of reason, temporal clauses etc.)<br>- infinite and participle structures<br>Interpretations and analyses are based on both traditional and dependency syntax.                                                                           |                                          |
