<b>Conditions for course completion:</b> Continuous assessment of students during the semester will consist of two individual assignments: <ul style="list-style-type: none"> <li>- the first task will be assigned in the seventh week of the summer semester – its content will correspond to the topics dealt with at weeks 1 to 6 seminars,</li> <li>- the second task will be assigned in the twelfth week of the summer semester - its content will correspond to the topics dealt with at weeks 7 to 12 seminars,</li> </ul> The final assessment will be made up of the two of the components. <b>Learning outcomes:</b> Students in the position of translators and interpreters should be able to cope with direct and reconstructed information and use the information resulting from the composition of the discourse. Students should be able to handle the communication which is “intelligible” in terms of the information comfort of the recipient. Students will learn how to employ the Kintsch’s model of three dimensions by the combination of which they will obtain eight practically applicable categories for the inference and production of meaning. Students should be able to admit the fact that their performance in this type of communication is based on the assumption that a degree of direct availability of the information in their long-term memory must prevail over the degree of the information explicitly present in the discourse.	
<b>Brief outline of the course:</b> Typology of genres of professional discourse and their comparison with conventional genres of professional style in French and English. The analysis of composition, styles and registers of oral and written communication. Semantic triangle. Kintsch’s model of three dimensions: 1. searching for the information in the memory vs. generation of information, 2. automated vs. controlled process, 3. extension vs. reduction of information. Virtual reference, method of presenting referential component. Terms in specialist branches of professional discourse. Cognitive and semantic competences: correspondence and equivalence.

<b>Prerequisites:</b>	
<b>Conditions for course completion:</b> - more than 75% participation in the seminars, - comprehensive presentation of particular cases assigned to every student, - at the end of the course everyone has to participate on the final debate and present within 10 minutes his or her view on his or her case in relation to corresponding provisions of Slovak law	
<b>Learning outcomes:</b> Firstly, students may acquire basic experience how to work and use the case law of the Court of Justice of the EU in legal practice; secondly, they may extend their English legal vocabulary and its use and, finally, activities during seminars may lead to strengthening of their communication skills in the area of the EU law.	
<b>Brief outline of the course:</b> 1. <b>University:</b> P. J. Šafárik University in Košice	
<b>Faculty:</b> Faculty of Law	
<b>Course ID:</b> KAaA/ CERTb/15	<b>Course name:</b> Language Competences for Language Certificates
<b>Course type, scope and the method:</b> <b>Course type:</b> Practice <b>Recommended course-load (hours):</b> <b>Per week:</b> 2 <b>Per study period:</b> 28 <b>Course method:</b> combined, present	
<b>Number of ECTS credits:</b> 2	
<b>Recommended semester/trimester of the course:</b> 1., 3.	
<b>Course level:</b> I., II., N	
<b>Prerequisites:</b>	
<b>Conditions for course completion:</b> Student evaluation is based on three criteria: TESTS 70%; CONTINUOUS PREPARATION 15%, and ATTENDANCE AND ACTIVE PARTICIPATION 15%. In order to receive credits for this course students must pass the two credit tests; continuously and timely submit their reports and attend each class according to the schedule. TESTS constitute 70% of the final mark: Ordinarily, student coursework is evaluated by letter grades, which are assigned a value based on a 100-point scale gained from two credit tests: A 100-93 B 92-86 C 85-78 D 77-72 E 71-65 FX 64-0 Students who are unable to take a credit test at the scheduled time due to a documented condition should contact the lecturer as soon as the need is apparent to discuss make-up examination accommodations and procedures. Students absent from a scheduled credit test will be examined by the lecturer separately in an oral exam to collect information about their level of preparedness. Oral exams will be realized during the lecturer's consultation hours as soon as possible after the missed credit test. The content of the oral examination will be equivalent with the content of the missed credit test but may last longer than a written test and can include deeper analysis of certain problem areas of the course. CONTINUOUS PREPARATION constitutes 15% of the final mark: Students are expected to prepare reports for each class by reading and processing the study materials and the required literature. Formal requirements for the home assignments: Minimum 2 but maximum 3 pages in Microsoft Word editor: letter type Times New Roman; letter size 12, spacing 1.5, 34 lines with 2865 characters per page with spaces. The report's header must contain the student's name and surname, study group, number of the given week according to the syllabus of the course and the title of the topic for the week. Content requirements for the assignment:	

Students must present the content of the reading assignment synthesized in a clear and structured way: highlighting key information and data as well as presenting logical connections between them. The submitted report must represent the student's thorough understanding of the content and the problem area discussed in the reading assignment.

Deadline and the format of the report:

Students must mail their home assignments to the following email address: rozenfeld.julius2@atk.sk by Saturday 24:00 each week. The reports must be mailed in PDF format.

No other formats will be accepted!

ATTENDANCE AND ACTIVE PARTICIPATION constitute 15% of the final mark:

All students must attend all classes. Students must arrive on time for the classes. Should anyone miss the first ten minutes of a class, will be marked as absent from the class.

All students must actively participate in extracurricular activities that are organized by the Department of the British and American Studies, which clearly contribute to their professional development: lectures and workshops, career week activities, volunteering in organizing open door days, language competitions and Olympiads, all fall in this category.

ABSENCE DUE TO ILLNESS

A student absent from a class must file a valid doctor's certificate by emailing it in a PDF format to the lecturer as soon as possible. Due reports for the missed class must be submitted according to the syllabus of the course and no later than the following class attended by the student.

In an emergency, if the student is unable to contact the lecturer and mail the valid doctor's certificate or is being treated elsewhere, the lecturer must be informed by sending an email to the following email address: julius.rozenfeld@upjs.sk as soon as possible. In both cases, the student must also file a letter from a physician certifying the date and nature of the illness.

ABSENCE FOR OTHER REASONS

Students who must be absent for reasons other than illness, such as a death in the family or a reason of similar gravity, must contact the lecturer as soon as possible and submit relevant documents that certify the seriousness of the case.

There may be other activities which can validate missing a class or several classes, for example participation in high-quality international competitions, scientific research, conferences or other relevant activities, which clearly contribute to the professional development of the student but final decision about the validity of the presented excuse fully falls in the lecturer's competency. Regular full-time or part-time employment is not an acceptable excuse for a missed class.

<b>Course ID:</b> KAaA/S/15	<b>Course name:</b> The Logical and Formal Coherence of Linguistic Expressions
<b>Course type, scope and the method:</b> <b>Course type:</b> Lecture / Practice <b>Recommended course-load (hours):</b> <b>Per week:</b> 1 / 1 <b>Per study period:</b> 14 / 14 <b>Course method:</b> present	
<b>Number of ECTS credits:</b> 3	
<b>Recommended semester/trimester of the course:</b> 1.	
<b>Course level:</b> II.	
<b>Prerequisites:</b>	
<b>Conditions for course completion:</b> continuous assessment: activity in seminars 25%; written test 75% Grading scale: A 100-94 %, B 93-89 %, C 88-83 %, D 82-77 %, E 76-70 %, FX 69 % and less	
<b>Learning outcomes:</b> Students can apply rules of construction of conventional sequence schemes to distinguish and create speeches. They can also group/re-group semantic packages to achieve integration of further utterances in order to establish the required interaction, they understand narration, description, argumentation, explication, illustration,... as psycho-cognitive schemes (socio-discourse macro-actions, types of texts) which are the most common forms of verbal action. They have mastered the procedures to overcome three types of difficulties the interpreters and translators encounter the most in transactions ensuring logical and formal coherence: the difficulty to select corresponding linguistic devices (expressions); the difficulty to harmonise the conceptual and linguistic aspects; the difficulty to find balance between their own perception and its linguistic expression and recipient's needs.	
<b>Brief outline of the course:</b> Seminar is focused on typology of errors in underlying processes in translation and interpretation: a) anaphoric expressions without a clearly identifiable reference element; b) synonyms, hyperonyms and hyponyms are not lexical elements of anaphoric relation; c) anaphora does not substitute a main term, but it refers to another term associated with mental image; d) high redundancy; e) replacement of contextual reference by deictic one; f) reference ambiguity resulting from co-reference or parallel function. Seminar also deals with essentials of semantic analysis and combinatorics, theme and rheme as pragmatic functions and implicit meaning. It involves discourse competence, function competence, and competence of text structure as well as receptive strategies and production strategies.
