University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: KAaA/ ACW1m/15	Course name: Language Skills - Academic Writing
Course type, scope and the method: Course type: Practice Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of credits: 3	
Recommended semester/trimester of the course: 1.	
Course level: II.	
Prerequisites:	
Conditions for course completion: Attendance and Participation: You may miss one class without penalty. If you miss two or more, you will fail the course. If you are repeatedly late, you will not be allowed to complete the course. You are expected to contribute to the class discussion and to provide insightful comments on the readings and on your classmates' work. I will lower your grade by one letter if you are consistently silent, disengaged, or unprepared. Drafts, Deadlines, and Late Work: Throughout the course, I will encourage you to write multiple drafts of each paper. Writing multiple drafts will improve your writing and take some of the stress out of the final deadline. Ideally, you will have a well developed rough draft well before the deadline, so you should always be able to get something in. Your work will be read and critiqued by your fellow classmates, so please make your drafts as complete as possible and come prepared for a lively discussion. Late work will not be accepted. If any draft or paper is late, you will fail the entire course. Continuous Assessment: You will write two short papers, three pages each, and one long paper of at least eight pages. A page means approximately 330 words. Assignment descriptions are posted on ffweb. The final paper may be a revision of one of the short papers. For each paper, I will break down your overall grade into four categories: Concept, Structure, Language, and Documentation. On your final paper, if you receive an FX in any one of these four categories, you will fail the course. Any paper not properly documented will receive an FX overall. It breaks down like this: Paper 1 25% A 93-100% Paper 2 25% B 86-92% Paper 3 50% C 78-85% D 72-77% E 65-71%	
Learning outcomes: To teach grammatical and rhetorical forms, improve students' research and analytical skills, and clarify the conventions of academic discourse with special emphasis on developing a thesis which is complex enough to sustain a graduate level paper.

Prerequisites:	
Conditions for course completion: "Students are expected to attend all classes and to view all required films, to be punctual and attentive, and to participate vigorously but politely in discussions of films and readings. The participation grade is based on attendance and a demonstrated engagement with the course material. Assessment and evaluation: 1. 30% Attendance and active participation 2. 50% Presentation 3. 20% Quick terminology test 1. Active participation, completed homework assignments: (30% of final grade) Students are required to do their best with respect to active participation in seminar sessions. Students are expected to bring their own ANNOTATED copies of the required materials, complete the assigned tasks and exercises and participate in class discussions. Students are required to work with Moodle and download the required materials from there. Every student is responsible for their access of the system and should be able to log into Moodle no later than by WEEK 3. Students may at any point during the semester ask about their current score in active participation and may ask for extra assignments if unable to speak in the class. 2. Presentation: (50% of final grade) Students will be asked to give a group presentation which will aim to compare and contrast an English literature text and its movie adaptation. All the requirements for the presentation will be specified during the introductory class and a sample presentation will be given in WEEK 5. Students must NOT read their presentations, but must be ready to speak in their own words. Each member of the group will receive the same number of points, so students are advised to cooperate closely. Students are to prepare discussion points for their fellow colleagues. 4. A quick terminology test (20% of final grade) will be taken in WEEK 5 and will check students' ability to understand literary and film terms. These terms are essential for our in-class discussions and presentations. There are no retakes of the test."	
Learning outcomes: This course aims at analyzing chosen texts from English literature from the unlikely point of adaptation. In comparing texts and their adaptations, students will expand their existing textual analysis skills, explore the dialogue among multiple iterations of a single story. Course activities	

promote active learning, with most class sessions incorporating a mix of discussion, mini-lectures, and group work.

Course ID: ÚBEV/ ZOG1/03		Course name: Zoogeography			
Course type, scope and the method: Course type: Lecture / Practice Recommended course-load (hours): Per week: 2 / 2 Per study period: 28 / 28 Course method: present					
Number of credits: 6					
Recommended semester/trimester of the course: 1., 3.					
Course level: I., II.					
Prerequisites:					
Conditions for course completion: Active participation in seminars. Preparation of oral presentation to selected topic. Semestral written test. Oral examination.					
Learning outcomes: The main goal of the subject is to get knowledge on the basic reasons of recent distribution of the animals on the Earth, zoogeographic regionalization of the Earth's surface and human influence on the faunal distribution in the history.					
Brief outline of the course: This course will review our current understanding of the patterns of animal distribution and the processes that influence distributions of species and their attributes. Zoogeography will integrate information on the historical and current ecology, genetics, and physiology of animals and their interaction with environmental processes (continental drift, climate) in regulating geographic distributions. The course will emphasize descriptive and analytical approaches useful in hypothesis testing in zoogeography and will illustrate applied aspects of zoogeography (e.g. refuge design in conservation).
