University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: KAaA/ ACW1m/15	Course name: Language Skills - Academic Writing
Course type, scope and the method: Course type: Practice Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of credits: 3	
Recommended semester/trimester of the course: 1.	
Course level: II.	
Prerequisites:	
Conditions for course completion: Attendance and Participation: You may miss one class without penalty. If you miss two or more, you will fail the course. If you are repeatedly late, you will not be allowed to complete the course. You are expected to contribute to the class discussion and to provide insightful comments on the readings and on your classmates' work. I will lower your grade by one letter if you are consistently silent, disengaged, or unprepared. Drafts, Deadlines, and Late Work: Throughout the course, I will encourage you to write multiple drafts of each paper. Writing multiple drafts will improve your writing and take some of the stress out of the final deadline. Ideally, you will have a well developed rough draft well before the deadline, so you should always be able to get something in. Your work will be read and critiqued by your fellow classmates, so please make your drafts as complete as possible and come prepared for a lively discussion. Late work will not be accepted. If any draft or paper is late, you will fail the entire course. Continuous Assessment: You will write two short papers, three pages each, and one long paper of at least eight pages. A page means approximately 330 words. Assignment descriptions are posted on ffweb. The final paper may be a revision of one of the short papers. For each paper, I will break down your overall grade into four categories: Concept, Structure, Language, and Documentation. On your final paper, if you receive an FX in any one of these four categories, you will fail the course. Any paper not properly documented will receive an FX overall. It breaks down like this: Paper 1 25% A 93-100% Paper 2 25% B 86-92% Paper 3 50% C 78-85% D 72-77% E 65-71%	
Learning outcomes: To teach grammatical and rhetorical forms, improve students' research and analytical skills, and clarify the conventions of academic discourse with special emphasis on developing a thesis which is complex enough to sustain a graduate level paper.	

Brief outline of the course:

Week 1 18.9 Introductions.

Course type, scope and the method: Course type: Practice Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of credits: 3	
Recommended semester/trimester of the course: 1.	
Course level: II.	
Prerequisites:	
Conditions for course completion: "Students are expected to attend all classes and to view all required films, to be punctual and attentive, and to participate vigorously but politely in discussions of films and readings. The participation grade is based on attendance and a demonstrated engagement with the course material. Assessment and evaluation: 1. 30% Attendance and active participation 2. 50% Presentation 3. 20% Quick terminology test 1. Active participation, completed homework assignments: (30% of final grade) Students are required to do their best with respect to active participation in seminar sessions. Students are expected to bring their own ANNOTATED copies of the required materials, complete the assigned tasks and exercises and participate in class discussions. Students are required to work with Moodle and download the required materials from there. Every student is responsible for their access of the system and should be able to log into Moodle no later than by WEEK 3. Students may at any point during the semester ask about their current score in active participation and may ask for extra assignments if unable to speak in the class. 2. Presentation: (50% of final grade) Students will be asked to give a group presentation which will aim to compare and contrast an English literature text and its movie adaptation. All the requirements for the presentation will be specified during the introductory class and a sample presentation will be given in WEEK 5. Students must NOT read their presentations, but must be ready to speak in their own words. Each member of the group will receive the same number of points, so students are advised to cooperate closely. Students are to prepare discussion points for their fellow colleagues. 4. A quick terminology test (20% of final grade) will be taken in WEEK 5 and will check students' ability to understand literary and film terms. These terms are essential for our in-class discussions and presentations. There are no retakes of the test."	
Learning outcomes: This course aims at analyzing chosen texts from English literature from the unlikely point of adaptation. In comparing texts and their adaptations, students will expand their existing textual analysis skills, explore the dialogue among multiple iterations of a single story. Course activities	

promote active learning, with most class sessions incorporating a mix of discussion, mini-lectures, and group work.

Number of credits: 2	
Recommended semester/trimester of the course: 2.	
Course level: II.	
Prerequisites:	
Conditions for course completion: Final test	
Learning outcomes: Course description The aim is to introduce corpus linguistics as a research method for descriptive and applied linguistics. To this end, the corpus consists of two parts: i. theory, which reviews the history of corpus linguistics and the basic stages of corpus building and annotation; and ii. practice, which is a series of hands-on sessions where the main corpus tools are exercises by use of a selection of free-access corpora, dictionaries, and concordancers and concordancer-related tools. The course aims at enabling students to: iii. understand the principles of corpus-based research; iv. successfully the right corpus-related tools for their needs; and v. train in the basic stages of data collection, sampling and preparation.	
Brief outline of the course: Part I. Theory 1. An introduction to corpus linguistics 1.1. What is corpus linguistics? 1.2. Computerised corpora 1.3. The state of the art in corpus linguistics 1.4. The linguistic exploitation of computerised corpora 2. Corpus design and compilation 2.1. Introduction 2.2. Corpus design and compilation 2.3. The size of corpora 2.4. The Text Encoding Initiative (TEI) 3. Corpus annotation 3.1. Introduction 3.2. Corpus annotation 3.3. Two examples of annotation: tagging and parsing	

3.4. Semantic disambiguation Part II. Practice 4. (Online access to) major corpora 4.1. The BNC. Access modes 4.2. CREA, CORDE, SNC 4.3. Other corpora or bodies of data 4.4. Web as corpus 5. (Online access to) major dictionaries 5.1. The OED 5.2. The DRAE 5.3. The SSLD 6. (Online access to) corpus tools (frequency lists) 6.1. Kilgarriiff (1998) 6.2. Leech, Rayson & Wilson (2001) 6.3. BNC Sampler-based frequency list 7. Data processing 7.1. Data collection 7.2. Data sampling 7.3. Data preparation 8. Assignments 8.1. Under-/over-/... verbal compounds and lexicalization 8.2. Course ID: KAaA/ DIAJmu1/15	Course name: Methodology of English Language Teaching 1
Course type, scope and the method: Course type: Practice Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of credits: 2	
Recommended semester/trimester of the course: 1.	
Course level: II.	
Prerequisites:	
Conditions for course completion: Class attendance Students are expected to attend each class according to the schedule. Transfers among the groups are not possible. In case you miss one class you are required to excuse your absence with a valid doctor's certificate. In case you miss more than two classes, you will not receive credits for the course. You must be on time for class. Should you miss the first ten minutes of a particular seminar session your presence in the class will not count. Preparation Students are expected to make their own copies of the required materials and complete the assigned tasks and exercises. Should you fail to bring your own copy of the required study materials or a completed home assignment for a particular seminar, your presence in class will not count. If you arrange with the tutor in advance not to attend a class session, you will be expected to submit any assignment on the subsequent session. Assessment During the course there will be two credit tests. A 100-93, B 92-86, C 85-78, D 77-72, E 71-65, FX 64-0 Only those students are eligible to enroll for the final oral exam, who achieve at least 65 points from the two credit tests. The oral exam is composed of two parts: Part1: Presentation of a seminar project based on the recommended literature list and analysis of teaching practice. 0-5 points for professional application of theoretical knowledge of TEFL methodology during teaching practice 0-5 points for the correct presentation and analysis of the observation sheets from teaching practice 0-5 points for the quality of presentation: style, content, academic vocabulary, and grammatical correctness Part2: Discussing a randomly selected topic according to the syllabus of the subject. 0-5 points for the content and the presented factual knowledge based on the recommended literature; 0-5 points for the quality of the delivery of the response (the speech is clear, and easy to follow, the knowledge is presented in a logical and coherent way);	

0-5 points for the language used (grammatical correctness, and academic vocabulary)
 30-28A, 27-25B, 24-22C, 21-19D, 18-16E, 15-0FX
 The final mark is calculated as the sum of the exam results from the two credit tests and the oral part.

Learning outcomes:

The course is designed to help students understand and use the concepts of didactics and connect the knowledge of this subject area with the problems of teaching English as a foreign language. The students will obtain a general overview of didactics and the special characteristics of language teaching.

Brief outline of the course:

1. Introduction
2. Terminology of TEFL
3. Timing, Curriculum Design and Developing Units of Work
4. Psychological and Paedagogical Characteristics of Learning
5. Teaching, Classroom Management, and Method of Instruction
6. Language Learnign and Second Language Acquisition
7. Developing Listening Skills
8. Developing Speaking Skills
9. Developing Reading Skills
10. Developing Writing Skills
11. Developing Grammar in Writing

Number of credits: 3	
Recommended semester/trimester of the course: 2.	
Course level: II.	
Prerequisites:	
Conditions for course completion: Computer science teaching plan at secondary grammar school. Conceptual map and cognitive objectives of chosen topic. Solving of algorithmic problem with the description of used problem solving strategies. Collection of tasks with increasing complexity. Video recorded from microteaching of chosen topic using activating methods. Applet to the teaching of algorithms and programming. Worksheet to programming chosen game in Scratch. Activity in discussion forums.	
Learning outcomes: 1. To acquire an overview of the objectives, content, modern methods of teaching computer science. 2. To create conceptual map, cognitive objectives and tasks collection with increasing complexity for chosen topic. 3. To solve selected algorithmic problems using various problem solving strategies. 4. To master the methodology of teaching of algorithms and programming using selected algorithmic simulations, games, programming environments.	
Brief outline of the course: The objectives and content of computer science education. Solving algorithmic problems exploiting algorithmic games and children's programming environment. Teaching task, its forms and parameters. Creation of tasks collection with increasing complexity. Activating methods of teaching computer science. Methodology of teaching selected topics of algorithms and programming (recursion, sorting, searching, coding, encryption, compression, checksums). Methodology of teaching programming in Scratch.

Number of credits: 5	
Recommended semester/trimester of the course: 3.	
Course level: II.	
Prerequisites:	
Conditions for course completion: The preliminary assessment shall be based on the results of independent work of student on computers for a number of sub-assignments (course and evaluation of own inquiry activity, didactical quiz, interactive modelling applet, inquiry-based worksheet with tasks and questions). In final exam students will demonstrate an overview of the theoretical knowledge in the field of computer science education in written form and they will present and defend their own educational project for the chosen topic of the computer science (containing objectives, system of tasks with increasing complexity, tasks solutions and methodological commentaries and didactical quiz).	
Learning outcomes: 1. For the chosen topic of school informatics create didactic quiz, inquiry-based worksheet with tasks and questions, implement and evaluate own inquiry activity. 2. To create an interactive model for the chosen natural phenomenon or computer science concept. 3. To create a lesson preparation using modern teaching methods and aids, to implement it in practice and evaluate.	
Brief outline of the course: Teaching paradigms. Inquiry based computer science education. Process of creating concepts in computer science. Assessment of learning objectives of pupils, didactical quizzes. Programming teaching (paradigms, environments, data types, commands, variables). Specifics of computer arithmetics. Mathematical modelling and simulation. Methodology of teaching selected topics of computer science (multimedia, internet). Computer science competitions.

Course type, scope and the method: Course type: Practice Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of credits: 3	
Recommended semester/trimester of the course: 1.	
Course level: II.	
Prerequisites:	
Conditions for course completion: Attendance and participation – 20% Students are required to attend classes, bring their own materials as instructed by the lecturer, and actively participate/react to discussions and questions. If a screening of a documentary is scheduled for the week, students are still required to attend. Missing three or more classes will result in an FX. Presentation – 40% Students will demonstrate their knowledge in short presentations in Week 9 and Week 10. Each student can choose their own topic for the presentation, based on the contemporary issues in the media (news, magazines, sitcoms, films, music...) relating to gender identity, sexuality, etc. Each presentation should be 5-7 minutes long, and analyze the chosen examples of popular culture, i.e. be as specific as possible (i.e. not 'women face a lot of issues in the media' but 'I have found that many music videos, as shown in these two examples, objectify female bodies in X and Y ways'). The topics and dates for your presentations have to be approved by the teacher via e-mail by the end of Week 7. Written exam – 40% The exam will take place in Week 11.	
Learning outcomes: This is a graduate course designed to examine basic issues in contemporary gender studies. Student will learn about different concepts of gender identities as well as key concepts of feminism and gender. Furthermore, students will come across basic concepts of queer theory. This course will also examine the interconnectedness of gender and law, religion and contemporary culture.

Learning outcomes: The course is designed to instruct students in the art of cinematic discourse and provide them with a set of information that will help them develop and/or improve essential analytical skills in interpreting contemporary American cinema. It also invites students to participate more judiciously in the analysis of American cinema with the intention to enable them question their own role as passive spectators and increase their ability to watch films actively and critically. Course content: In this course we will examine major issues in film theory and contemporary approaches to understanding film. Since the 1970s, scholars have developed a variety of critical methods for	

the study of media texts, and this course focuses on the most viable ones to provide students with tools necessary to interpret films as socio-cultural and ideological productions.

Notes:

For seminars with Mgr. Demjanová, PhD.:

The language of the course is Slovak. Students are expected to have a very good English language competence, lack of such competence will not be excused when evaluating student's interpreting and will have an effect on the final assessment. The course is not recommended to the first-year students, since a very high command of English on the C1+ level is required. The course is recommended to those students who have attended consecutive interpreting courses during their bachelor studies.

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: ÚINF/JAC1/15	Course name: Programming language C
Course type, scope and the method: Course type: Practice Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of credits: 2	
Recommended semester/trimester of the course: 1., 3.	
Course level: I., II.	
Prerequisites:	
Conditions for course completion: Practices attendance and activity. Home assignment Final project.	
Learning outcomes: Become skilled in language C and get knowledge of the theoretical concepts that are used in the development in low-level software.	
Brief outline of the course: 1. Installing and setting up the development environment. Simple program in C, compiling and running. 2. Loops, conditions. Introduction to arrays. Numeric functions from numeric library. Compiling with `gcc` and setting up the warnings and hints. 3. Functions. Statically allocated arrays. Array gotchas in C. Makefiles for complex projects. 4. Basic I/O functions. Functions with array parameters and specifics. 5. Dynamic memory allocation as a mechanism for dynamic arrays. Strings as a special case of arrays. Strings and file I/O. 6. String manipulation principles and functions from standard library. 7. Working with binary files. 8. Custom data types. Structs. 9. Dynamic data structures. Linked lists. Stacks and operations with these structs. 10. Additional operations with dynamic data structures. Parameter passing with values and name. 11. Useful tricks and hints: passing parameters from operating system, exit codes. Multidimensional arrays. 12. Function pointers. Generic pointers. Unions.

Recommended semester/trimester of the course: 1.	
Course level: II.	
Prerequisites:	
Conditions for course completion: 1. Attendance - students are expected to attend each class according to schedule. Should the student miss two or more classes without relevant reason, he/she will not receive credits for the course no matter what his/her overall results are. The student must be on time for class or he/she will be marked as absent. 2. Continuous and final assessment: Preparation and active participation (50 %) 1. Each student is expected to have their own copy of the class material, to read and analyse them before the lesson (own written preparation is necessary). 2. Active contribution to seminar discussion by presenting information and comments not only from the material assigned by the lecturer, but also from the other sources related to the discussed major linguistic theories and movements, is required. Presentation (50%) Each student is to prepare a 30 minute presentation related to the given area of linguistics (details will be specified on the first, introductory seminar) Final assessment is given by the sum of continuous assessment (active participation 50%, presentation 50%). There is no retake for any part of the continuous assessment. FINAL EVALUATION = final assessment mark: Mark % A 92 – 100 B 87 – 91 C 82 – 86 D 77 – 81 E 65 – 76 FX 64 and less

Number of credits: 2	
Recommended semester/trimester of the course: 2.	
Course level: II.	
Prerequisites:	
Conditions for course completion: Two credit tests are intended for weeks 7 and 13. The date of the test may change, and the students will be notified about the change sufficiently in advance. The tests will verify students' knowledge of materials covered during seminars and assigned for home preparation. In order to pass the subject, the sum of the scores from the two tests must be at least 65%. A student cannot pass or fail a single test, what matters is the final score after they have taken both. There will not be any re-take tests. Regular seminar attendance is expected; more than two absences will adversely affect getting credit and final grade, no matter what student's overall test results are. Students are required to do their best with respect to active participation in seminar sessions. They are expected to bring their own copies of the required materials and complete the assigned tasks and exercises. Should they fail to bring their own copy or a completed home assignment for a particular seminar, they will be marked as absent. In case of any questions regarding the subject, please contact the instructor: veronika.babjakova@student.upjs.sk The grading standards establish the following criteria for evaluation: 100%-92% A 91%-87% B 86%-82% C 81%-77% D 76%-65% E 64% and less FX	
Learning outcomes: The subject is aimed to work with EU legal texts in order to introduce terminological registers, basic translation methods and techniques and various stylistic layers of the texts.

Course ID: KAaA/ SFS/18	Course name: Skills for Success
Course type, scope and the method: Course type: Practice Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of credits: 3	
Recommended semester/trimester of the course: 1., 3.	
Course level: II.	
Prerequisites:	
Conditions for course completion: Conditions for completing the course: a) regular attendance and active participation (max. permitted absence: 1x180 min) - 40 % b) group presentation of the topic chosen from the course syllabus during the last lesson and feedback to team members - 60 %	
Learning outcomes: The course focuses on soft and hard skills necessary to become successful on the labour market within the shared corporate services centres and its objective is to provide students with a set of effective communication tools. The companies associated within the Business Service Center Forum (BSCF) of the American Chamber of Commerce in Slovakia employ more than 31,000 full-time employees and have identified soft communication skills on one hand as the most important skills but on the other hand as at least developed competences of graduates entering the labour market. The aim of the course is to contribute to enhancement of soft and hard skills which are necessary for working not only in the shared services centres, but also widely applicable on the labour market. After completing the course, students will be able to communicate more assertively, solve conflicts arising on the workplace, receive and give feedback effectively, but they will also know the basis of working in accounting systems or in programming languages.	
Brief outline of the course: Module 1 – Verbal & Non-verbal Communication – the module will be divided into two blocks of topics. Block A (productive conversation) – people think that simple talking means good conversation. Why do misunderstandings occur? But communication is not only about talking. Productive conversation requires much more than ability to talk. In this block, students will get answers to questions such as “how to assure the other person that we are listening properly, what to do and why to do that?”; “in what situation and how to ask a right question to get the answer to our question?” or “how to be authentic and make an impression of being a competent and responsible employee?”. This block also includes role play for techniques and scenarios of productive conversation as well as finding the balance between Defence and Request.	

Block B (assertive communication) – assertive communication will be presented to students as a tool for expressing their own feelings and thoughts without being aggressive or using passive behaviour. In this block, the lecturer will also focus on the following issues:

- How assertive are you? To know oneself is the best starting point (role play).
- Assertive rules and Transactional Analysis according to Eric Berne.
- Aggressive – assertive – passive types of behaviour. Also passive – aggressive. How to identify them and how to react properly?
- Effective strategies for dealing with others, taking into account assertiveness and cooperation level. When it is appropriate to use “destruction strategy”? Is compromise the golden mean?
- Good assertive techniques.

The module will last for 180 minutes and the language of instruction will be English.

Lecturer: Mgr. Martin Gbúr (T-Systems Košice)

Module 2 – Conflict Management – The aim of the module is to introduce the conflict situations as moments we often find hard to avoid in the workplace, which is why it is important to know how to efficiently manage and communicate them to find the solution. The trainer will teach students the strategies and techniques of how to manage conflicts. Knowing when and how to apply them will help the course students manage conflict situations efficiently. By the end of the module, the students will learn how to:

- discuss the nature of the conflict, the fact that it can be constructive or destructive, that learning to overcome the barriers when managing conflict can help them build their career;
- distinguish 5 most frequent styles of solving conflicts and improve their conflict-solving skills by learning which one to employ or which one to avoid;
- discuss how conflict-solving can improve their relationships, enhance their cooperation skills and increase their professional efficiency;
- discuss how their attitude influences the perception of conflict situation and how it helps to solve conflict constructively.

The module will last for 180 minutes and the language of instruction will be English.

Lecturers: Mgr. Eva Hruščová, PhD., Mgr. Katarína Maťašová (LafargeHolcim Košice)

Module 3 – Microsoft Excel – The aim of the module is to present users the functions of Microsoft Excel mostly used in the business environment of shared services centre. By the end of the module, students will know (inter alia) how to:

- import data among individual databases;
- format and edit sheets;
- use basic formulae and operate data analyses;
- create graphs

The module will last for 180 minutes and the language of instruction will be Slovak/English.

Lecturer: Martina Machová, MBA (DELL Bratislava)

Module 4 – Time Management

The module will last for 180 minutes and the language of instruction will be English.

Lecturer: Ing. Peter Rusiňák, PhD. (BSCF AmCham)

Module 5 – Personal Brand - Business set-up

The module will last for 180 minutes and the language of instruction will be English.

Lecturer: Mgr. Matúš Draganovský (SUVko Coaching Košice)

Module 6 – Feedback – We constantly hear about feedback and everyone knows how important feedback is and everyone wants to know whether his/her performance and success are appreciated.

However, the lecturer will outline what is the difference between “feedback” and “effective feedback”. The aim of this module is to explain how to give/get effective feedback that leads to higher performance and better behaviour on the workplace. Within the feedback module, the following topics will be presented to students:

- What is feedback? What possibilities (types, variants) do we have? Steps in the process of giving/receiving feedback.
- Difference between criticism and feedback, its parameters.
- In which situations we give feedback?
- What will we achieve by feedback (what we want to achieve, solve, ...)?
- Rules for effective and supporting feedback – verbal and non-verbal stimuli, exercises, key aspects of effective feedback, push & pull forms of feedback.

The feedback module will also include a final group presentation which is included in overall assessment of each student. The presentation will take place in front of audience consisting of the course lecturers and students and team members will give feedback to their team colleagues.

The module will last for 180 minutes and the language of instruction will be English.

Lecturer: Ing. Štefan Mikloš, MBA (IBM Košice)

Prerequisites:	
Conditions for course completion: Conditions for completing the course: a) regular attendance and active participation (max. permitted absence: 1x180 min) - 40 % b) group presentation of the topic chosen from the course syllabus during the last lesson and feedback to team members - 60 %	
Learning outcomes: The course focuses on soft and hard skills necessary to become successful on the labour market within the shared corporate services centres and its objective is to provide students with a set of effective communication tools. The companies associated within the Business Service Center Forum (BSCF) of the American Chamber of Commerce in Slovakia employ more than 31,000 full-time employees and have identified soft communication skills on one hand as the most important skills but on the other hand as at least developed competences of graduates entering the labour market. The aim of the course is to contribute to enhancement of soft and hard skills which are necessary for working not only in the shared services centres, but also widely applicable on the labour market. After completing the course, students will be able to communicate more assertively, solve conflicts arising on the workplace, receive and give feedback effectively, but they will also know the basis of working in accounting systems or in programming languages.	
Brief outline of the course: Module 1 – Verbal & Non-verbal Communication – the module will be divided into two blocks of topics. Block A (productive conversation) – people think that simple talking means good conversation. Why do misunderstandings occur? But communication is not only about talking. Productive conversation requires much more than ability to talk. In this block, students will get answers to questions such as “how to assure the other person that we are listening properly, what to do and why to do that?”; “in what situation and how to ask a right question to get the answer to our question?” or “how to be authentic and make an impression of being a competent and responsible employee?”. Learning outcomes: The main objective of the course is to develop and improve essential analytical skills in dealing with translation of documentary films and to acquire knowledge of the basic techniques and methods when dealing with problems of such translation.	
Brief outline of the course: The course introduces essential issues, terms and theory that help to overcome the basic problems when translating documentary films. Focus is on theoretical knowledge as well as practical exercises during which students acquire familiarity and basic skills in translating documentary films. Audiovisual translation needs specific approach when encountering problems that are	

specific for such translation, and requires theoretical knowledge of theory of documentary films as well.

Conditions for course completion: THIS COURSE IS A DISTANCE LEARNING COURSE DURING THE 2019 SPRING TERM. FINAL ASSESSMENT WILL BE BASED ON SEMINAR WORKS. Class attendance Students are expected to attend each class according to the schedule. Transfers among the groups are not possible. In case you miss one class you are required to excuse your absence with a valid doctor's certificate. In case you miss more than two classes, you will not receive credits for the course. You must be on time for class. Should you miss the first ten minutes of a particular seminar session your presence in the class will not count. Preparation Students are expected to make their own copies of the required materials and complete the assigned tasks and exercises. Should you fail to bring your own copy of the required study materials or a completed home assignment for a particular seminar, your presence in class will not count. If you arrange with the tutor in advance not to attend a class session, you will be expected to submit any assignment on the subsequent session. Assessment During the course there will be two credit tests. The final result will be calculated according to the following formula: 1st Credit test + 2nd Credit test = Final Result A 100-93, B 92-86, C 85-78, D 77-72, E 71-65, FX 64-0

Course level: II.	
Prerequisites:	
Conditions for course completion: Assessment of preliminary assignments - design of a teleproject, design of an e-learning course lesson, design and implementation of a video-conference activity. In final exam students will demonstrate an overview of using the Internet in education in written form and they will present and defend their final work focused on using the Internet in education (design and implementation of an e-learning course, teleproject, webquest, on-line competition, lesson exploiting several Internet sources and tools).	
Learning outcomes: 1. To acquire an overview of the possibilities of using the Internet in education. 2. To enhance skills for searching, acquiring, exchanging and presenting information via the Internet. 3. To design, develop and verify an Internet activity (e-learning course, teleproject, WebQuest, online competition, video lecture).	
Brief outline of the course: Overview of using the Internet in education. Educational Web sites and search engines. Design, implementation and evaluation of e-learning courses. Educational teleprojects, online competitions, teleexperiments. Communicating via the Internet - forums, blogs, videoconferences, social networking. Social, medical, ethical and legal aspects of using the Internet.
