COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: KSP/ ObP/15	Course name: Civil Law
Course type, scope and the method: Course type: Lecture / Practice Recommended course-load (hours): Per week: 2 / 1 Per study period: 28 / 14 Course method: present	
Number of credits: 5	
Recommended semester/trimester of the course: 2.	
Course level: I., II.	
Prerequisites:	
Conditions for course completion: The subject ends with an exam. During the semester the student prepares and presents seminar work for the seminar. During the test period, a knowledge test and an oral exam are carried out. To obtain A, the student must earn at least 91 points to obtain a B rating of at least 81 points to obtain a C rating of at least 71 points to obtain a D rating of at least 61 points to obtain an E rating of at least 51 points. A student who scores below 51 points will be rated FX. The resulting rating is calculated from the sum of the following parts: 80% participation in lectures and seminars 20 points Active seminar presentation 20 points Written examination of 30 points Oral exam 30 points External and distance learning is assessed by written exam and oral exam.	
Learning outcomes: The course is focused on providing general theoretical and methodological basis of civil law. It explains definition and subject of civil law. Status of civil law in the Slovak legal system. Civil law system. Sources of civil law, civil law relations, representation, title, law of obligation, liability in civil law. The aim is to provide students with theoretical and practical knowledge related to civil proceedings and its individual institutions as well as special types of civil proceedings so that they are able to apply their knowledge successfully in practice.	
Brief outline of the course: Civil material law: Definition and subject of civil law. Status of civil law in the Slovak legal system. Civil law system. Sources of civil law. Civil Code – systematics, terms of reference. Civil legal standards (cogent, non-mandatory). Interpretation and application of civil legal standards. Legal acts (requirements, content, types and kinds of legal acts). Consequences of faulty legal acts. Contracts in civil law. Civil relations, their elements. Subject of civil relations. Natural person as a subject of civil relations. Protection and subject of personality. Remedies. Legal entities – interest association of legal entities, foundations, non-investment funds. Representation (contractual, legal). Protection of intangible assets and civil relations. Definition and content of title. Tenancy in common and tenancy in entirety. Law of obligation. Liability in civil law in general. Basic prerequisites for the origin of liability. Unjust enrichment. Law of inheritance. Prerequisites of inheritance. Intestate succession. Testamentary succession.	

Civil procedural law: Civil proceeding and civil procedural law, definition, subject, classification. Sources of civil procedural law. Systematics of Civil Procedure Act. Principles of civil legal proceeding. Trial courts – system, authority, and jurisdiction, disputes regarding authority and jurisdiction. Exclusion of judges and other persons. Participants in civil law relations. Changes in participants in civil law relations. Competence of being the participant in civil law relations. Right to litigation. Procedural representation. Proceedings in a court of law. Opening of the case. Procedural conditions. Proceeding with and without hearing. Summary proceedings. Court process acts and participants in civil law relations, place, and time of process act. Estoppel to the proceedings. Evidence in general, subject, and stages of procedural evidence. Proper evidence and its types. Non-litigious types of proceeding. Arbitrating and court decisions. Costs. Correction systems, appellate proceedings, and remedies. Bankruptcy and restructuring. International procedural law.
