COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: ÚGE/ KAG/15	Course name: Cartography and Geoinformatics
Course type, scope and the method: Course type: Lecture / Practice Recommended course-load (hours): Per week: 2 / 2 Per study period: 28 / 28 Course method: present	
Number of ECTS credits: 5	
Recommended semester/trimester of the course: 1.	
Course level: I.	
Prerequisites:	
Conditions for course completion: During the semester it is necessary to pass out the work outputs from the exercises. The knowledge gained on the exercises will be verified by continuous written examinations. The number of work outputs and written examinations will be announced at the beginning of the semester. It is possible to obtain 30% of the assessment criteria for the exercise (work outputs and written examinations). The final evaluation of the exercises is determined by the instructor of the subject based on the completion of tasks in the exercises during the semester. The final evaluation of the study subject is based on the combination of the evaluation conditions from the exercise and the final exam. The final exam may be enrolled by a student who has fulfilled the requirements for attending the exercises and who achieves a rating of at least minimum 16 % in evaluation in exercises. The final assessment is the weighted average of the exercise assessment (30 %) and the final exam (70 %). Credits are awarded only to a student who achieves rating at least at the grade level of E, i.e. he achieves the rating of at least 51 %. Credits will not be awarded to a student who does not meet the requirements of the exercise and the exam is rated FX. Rating scale: A (100-91%), B (81-90%), C (71-80%), D (61-70%), E (51-60%).	
Learning outcomes: The main learning outcomes include theoretical and practical skills in cartography and geoinformatics. Students understand cartographic and GIS terminology, students can apply cartographic approaches and methods using GIS, projections and define the content and composition of maps in GIS. The student masters the design, use and evaluation of the properties of cartographic representations in various geoinformatics applications.	
Brief outline of the course: Cartography - the branch of science, position in the system of sciences, the history of cartography, topographic mapping in Slovakia; Cartographic projects, cartographic interpretation; Description maps, geographical names, cartographic generalization, State map series; Cartometry and morphometry; Mathematical cartography (reference area map projection and distortion). Geoinformatics – the branch of science, elements of GIS, digital representation of landscape, raster and vector data, data collection and processing data for GIS, geospatial database, visualization and cartographic representation using GIS, applications of GIS.

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: ÚGE/ KRS/08	Course name: Complex geographic characteristics of selected world regions
Course type, scope and the method: Course type: Practice Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of ECTS credits: 3	
Recommended semester/trimester of the course: 6.	
Course level: I.	
Prerequisites:	
Conditions for course completion: At the beginning of the semester, students choose a region from provided list. During the semester, they elaborate presentation reflecting formal and content requirements explained by teacher at the beginning of the semester. This part constitute 50% of total total evaluation. Another 10% represents the activity at the seminars. Remaining 40 % of evaluation is represented by written verification of acquired knowledge. Evaluation of all - the presentation, activity and written verification must reach at least 50% to complete the course. To get an A grade, it is necessary to obtain at least 90% of weighted average. 80% to grade B, 70% to C, 60% to D, and at least 50% to grade E.	
Learning outcomes: Understanding of causal relations between individual geographic phenomena in spatial and temporal context of individual regions; extended knowledge about selected regions.	
Brief outline of the course: Geographic location, geologic history and structure, orography and shapes of coast, climate, hydrology, soils and biogeography, protection of nature, current landscape and its transformation, historical and political development, population and sites, economy and integration groupings in selected regions of the world.

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: KPPaPZ/PUDB/15	Course name: Drug Addiction Prevention in University Students
Course type, scope and the method: Course type: Practice Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of ECTS credits: 2	
Recommended semester/trimester of the course: 3., 5.	
Course level: I.	
Prerequisites:	
Conditions for course completion: Students can get a maximum of 50 points for the course: Part 1 of the assessment: participation in the training (30p) - replaces the classic lessons, students choose the date of the training at the introductory first meeting to the course, therefore their participation is necessary. As the training takes place in two days, participation in the entire training is required. If it is impossible to participate in both days of training, the student must change to another date of training, which he will be able to complete. The training takes place partly over the weekend and also outside the school or in the training center in Danišovce (it starts on Thursday evening and ends on Saturday with lunch). The costs of accommodation, meals and travel are paid by the student himself. 2nd part of assessment: workshops (20p) - they replace classic lectures, are held 4 times per semester and for each workshop the student can get 5p (a total of 20p for workshops). In total, students can get 50p per subject and the final evaluation is as follows: 50 – 45: A; 44 – 40: B; 39 – 35: C; 34 – 30: D; 29 – 25: E; 24 a menej: FX. Any modifications to the implementation of the course in connection with the current order of the Rector are listed in the electronic board of the course.	
Learning outcomes: To provide students with more detailed information on the psychological aspects of drug prevention through an interesting, engaging explanation of theory and practice. Development of skills relevant for the prevention of drug use also through the use of experiential methods in teaching.

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: KAaA/ EMENb/15	Course name: E-mail English
Course type, scope and the method: Course type: Practice Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of ECTS credits: 2	
Recommended semester/trimester of the course: 2., 4.	
Course level: I.	
Prerequisites:	
Conditions for course completion: Student evaluation is based on three criteria: TWO CREDIT TESTS 70%; CONTINUOUS PREPARATION 10%, and ATTENDANCE AND ACTIVE PARTICIPATION 20%. To receive credits for this course students must pass the two credit tests; continuously and timely submit their reports and attend each class according to the schedule. Attendance is followed during the online sessions too. TESTS constitute 70% of the final mark: Ordinarily, student coursework is evaluated by letter grades, which are assigned a value based on a 100-point scale gained from two credit tests plus points for continuous preparation and active participation. The final mark is assigned according to the following scale: A 100-93 B 92-86 C 85-78 D 77-72 E 71-65 FX 64-0 Students who are unable to take a credit test at the scheduled time due to a documented condition should contact the lecturer as soon as the need is apparent to discuss make-up examination accommodations and procedures. Students absent from a scheduled credit test will be examined by the lecturer separately in an ORAL EXAM to collect information about their level of preparedness. Oral exams will be realized during the lecturer's consultation hours as soon as possible after the missed credit test. The content of the oral examination will be equivalent with the content of the missed credit test but may last longer than a written test and can include deeper analysis of certain problem areas of the course. CONTINUOUS PREPARATION constitutes 10% of the final mark (maximum 10 points): Students are expected to prepare reports for each class by reading and processing the study materials and the required literature. Formal requirements for the home assignments: Minimum 2 but maximum 3 pages in Microsoft Word editor: letter type Times New Roman; letter size 12, spacing 1.5, 34 lines with 2865 characters per page with spaces. The report's header must contain the student's name and surname, study group, number of the given week according to the	

syllabus of the course and the title of the topic for the week. The final document must be saved in Printable Document Format (PDF). Ignoring any of these criteria will automatically lead to the refusal of the submitted report.

Content requirements for the assignment:

Students must present the content of the reading assignment synthesized in a clear and structured way: highlighting key information and data as well as presenting logical connections between them. The submitted report must represent the student's thorough understanding of the content and the problem area discussed in the reading assignment.

WARNING: Reports must be original work of the author! Any violation of copyright or breach of anti-plagiarism rules and regulations of the university will inevitably lead to disciplinary procedures! Repeated and systematic plagiarism will lead to the loss of credits assigned for completion the course!

Deadline and the format of the report:

Students must mail their home assignments to the following email address: rozenfeld.julius2@atk.sk by Saturday 24:00 each week. The reports must be mailed in PDF format. No other formats are accepted! No late submissions will be accepted unless separately negotiated with the supervisor of the course!

ATTENDANCE AND ACTIVE PARTICIPATION constitute 20% (maximum 20 points) of the final mark:

All students must attend all classes regardless they are organized face-to-face or online. Students must join the class sessions on time. Should anyone miss the first ten minutes of a class, will be marked as absent from the class. Points for active participation are assigned **ONLY** to the students who actively contribute to the learning process during the sessions with joining discussions!

Volunteer work in extracurricular activities that are organized by the Department of the British and American Studies which clearly contribute to the students' professional development such as: lectures and workshops, career week activities, organization of open-door days, language competitions, conferences, Olympiads, and other similar activities are fully supported! Should these activities be organized during the regular session times, volunteers will be acknowledged as if they had participated in the regular class session.

ABSENCE DUE TO ILLNESS

A student absent from a class must file a valid doctor's certificate by emailing it in a PDF format to the lecturer as soon as possible. Due reports for the missed class must be submitted according to the syllabus of the course and no later than the following class attended by the student.

In an emergency, if the student is unable to contact the lecturer and mail the valid doctor's certificate or is being treated elsewhere, the lecturer must be informed by sending an email to the following email address: julius.rozenfeld@upjs.sk as soon as possible. In both cases, the student must also file a letter from a physician certifying the date and nature of the illness.

ABSENCE FOR OTHER REASONS

Students who must be absent for reasons other than illness, such as a death in the family or a reason of similar gravity, must contact the lecturer as soon as possible and submit relevant documents that certify the seriousness of the case.

There may be other activities which can validate missing a class or several classes, for example participation in high-quality international competitions, scientific research, conferences, or other relevant activities, which clearly contribute to the professional development of the student but final decision about the validity of the presented excuse fully falls in the lecturer's competency. Regular full-time or part-time employment is not an acceptable excuse for a missed class.

COVID-19 regulations:

Changing pandemic situation requires continuous adaptation. Online sessions organized via Microsoft Teams are the preferred alternative to in-person sessions if necessary. Attendance will

be duly followed on online meetings too. Tests – if required for the completion of course – are also planned flexibly. Normally, the first credit test takes place during the 6th week of the term with a second credit test on the 12th week, but changes may apply. If necessary, these test dates can be changed according to the pandemic situation or replaced by online tests the form and content of which are comparable with a normal paper-based test. Students are required to follow the department's noticeboard and inform themselves continuously about the possible changes!

Learning outcomes:

The primary objective of the course is to introduce students into basics of communication and business correspondence. The course is designed to help students develop writing skills needed for creating lucid messages. A special emphasis is put on spelling, text design, style and register.

Brief outline of the course:

1st Week: Introduction:

1. Formal or informal
2. Missing words and abbreviations
3. Key phrases

2nd Week: Basics 1:

4. Opening and closing
5. Giving news
6. Information, action, help
7. Internal messages
8. Attachments

3rd Week: Basics 2:

9. Arranging a meeting
10. Invitations and directions
11. Negotiating a project
12. Checking understanding

4th Week: Language Focus:

13. Verb forms
14. Comparisons
15. Sentence structure
16. Common mistakes
17. Punctuation and spelling

5th Week: Commercial 1:

18. A customer-supplier sequence
19. Inquires and orders
20. Discussing and agreeing terms
21. Asking for payments

6th Week: Commercial 2:

22. Describing business trends
23. Cause, effect, contrast

7th Week: Problems:

24. Complaints
25. Apologies

8th Week: Reports:

26. Report structure and key phrases
27. Linking words and relative clauses

9th Week: Direct/Indirect:

28. Being direct and brief

29. Being indirect and polite 10th Week: Personal: 30. Being friendly 31. Advice and suggestions 32. Job application

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice					
Faculty: Faculty of Arts					
Course ID: ÚGE/ GIS/15		Course name: Geographic Information Systems			
Course type, scope and the method: Course type: Lecture / Practice Recommended course-load (hours): Per week: 2 / 2 Per study period: 28 / 28 Course method: present					
Number of ECTS credits: 6					
Recommended semester/trimester of the course: 5.					
Course level: I.					
Prerequisites:					
Conditions for course completion: The assessment is a combination of continual control during the practicals and the final exam in the examination period. The continual assessment is performed during the semester and it involves 1 written test in the mid-term of the semester and a project report generated according to the assignment and practical skills acquired during the practicals. The student can go for the final exam in case he or she acquired at least the E mark in the continual assessment. The final assessment mark is the result of the average of the marks received in the mid-term test, project report and final exam. The final exam is a written test. The credits are given in case the student had reached at least the E mark in continual assessment and final exam. The following marking scheme is applied in the assessment: A (100-90 points), B (80-89 points), C (70-79 points), D (60-69 points), E (50-59 points), FX (0-49 points).					
Learning outcomes: The student will understand the basics of the theory of geoinformation science, GIS, and Remote Sensing. The student will be able perform tasks in a GIS software, generate thematic maps and conduct basic spatial analyses such as spatial queries, attribute queries, terrain modelling, editing custom geodata, importing geodata.

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: ÚGE/MG/18	Course name: Geography of mining
Course type, scope and the method: Course type: Lecture Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of ECTS credits: 2	
Recommended semester/trimester of the course: 3.	
Course level: I.	
Prerequisites:	
Conditions for course completion: The evaluation is based on a combination of continuous and final control. The continuous control is carried out during the teaching part by written test with a share of 30 % of the final evaluation. The final control is written and constitutes 70 % of the final evaluation. The resulting evaluation is a weighted average of the continuous (30 %) and final (70 %) controls. Credits will be awarded only to student who achieves the evaluation at the minimum level of the mark E in every part of the evaluation.	
Learning outcomes: To acquaint students with basic facts and knowledge of the history of mining science from the view of geographic aspect to obtain information overview of the history of the Slovak and world mining from a geographical point of view.	
Brief outline of the course: Historical foundations of the global mining industry, mining oldest written records of mining heyday in the Middle Ages, the first mining maps, Slovak ore mining in the Austro-Hungarian Empire, First World Mining Academy in Banská Štiavnica mining and migration of the population, the world "gold rush", salt roads Europe, coal mining and electrification of industry, environmental consequences of mining devastation, mining open-air museums in Slovakia and Europe and their importance for the promotion of tourism.

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: ÚGE/OBY2/18	Course name: Geography of population and settlements
Course type, scope and the method: Course type: Lecture / Practice Recommended course-load (hours): Per week: 2 / 2 Per study period: 28 / 28 Course method: present	
Number of ECTS credits: 6	
Recommended semester/trimester of the course: 3.	
Course level: I.	
Prerequisites:	
Conditions for course completion: Evaluation of student performance is carried out by combining ongoing review during the term of examination for the period of the semester. Continuous control consists of min. 80 % of the active participation of students in teaching and successfully solving assignments. If a student does not reach required active participation of teaching and successfully does not solve the given problem can not log on to the test.	
Learning outcomes: The student will acquire theoretical and methodological basis of Geography of Population and Settlements. Students will acquire a basic spatial differentiation of population and settlements in the world according to basic characteristics.	
Brief outline of the course: Population geography as a science discipline; Trends and forecasts of the world population; Distribution of population; Natural and mechanical movement of population (natality, mortality, balance natural movement of the population, model of demographic cycle, population migration); Population structure on the basis of biological, cultural and economic characteristics; Geography settlements as a scientific discipline; Settlement development and settlement systems; Geographical location of settlements; The structure of settlements by size, dynamics and morphology; Urban geography (definition of city, creation of city and functions cities); The hierarchy of settlements and Gravity; Urbanization (basic concepts, indicators, aspects and methods of research); Rural settlement systems (compact and scattered rural settlements and their geographical interpretation). Seminars Seminars during the semester are oriented to problem solving in order to practice, resp. demonstrate phenomena studied in different regional units of Slovakia, Europe or Worldwide.

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: ÚGE/ GMAP/13	Course name: Geomorphological mapping
Course type, scope and the method: Course type: Practice Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of ECTS credits: 2	
Recommended semester/trimester of the course: 4.	
Course level: I., II.	
Prerequisites:	
Conditions for course completion: The evaluation of the subject consists of assesment of one main semestral work - geomorphological map of the area (50 points) and 2-3 partial works (50 points), the total amount of points is 100. The student has to aquire minimum of half points from each work. For successful graduation of the subject the student has to aquire 51 points and more.	
Learning outcomes: after the graduation of the subject the student should information applied to the praxis and be able to map area with the main aim of high quality map and the legenda.	
Brief outline of the course: The main of the subject is to understand the topic of the geomorphological mapping, geomorphological map and its importance. It deals with the history of the geomorphological mapping, maps in slovak and foreign literature, about theory and praxis of field works and maps compilation, creating of the geomorphological map legenda for different relief types. With help of graphical softwers we are working with morphometric and morphographic relief characeter, the morphogenetical nad morphodynamical interpretation of the geomorphological map. After the theoretical part of seminars there is practical field mapping in the scale of 1: 10 000 at the and of the semester.	
Recommended literature: DEMEK, J. (edit.), 1972: Manual of detailed geomorphological mapping. Academia, Brno, 344 s. MINÁR, J., 1995: Niektoré teoreticko-metodologické problémy geomorfológie vo väzbe na tvorbu komplexných geomorfologických máp. COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: ÚGE/ UGIS/15	Course name: Introduction to Geographic Information Systems
Course type, scope and the method: Course type: Practice Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of ECTS credits: 3	
Recommended semester/trimester of the course: 2.	
Course level: I.	
Prerequisites:	
Conditions for course completion: During the semester, students will need to hand in the outputs of the practicals. The resulting assessment is based on the final practical skills verification and delivery of the outputs of practicals. From the practical skills verification, students must obtain at least 90 points to get the A mark, at least 80 points to get B, at least 70 points to get C, at least 60 points to get D, at least 50 points to get E. The credits shall not be granted to a student who does not hand in one or more outputs of the practicals or he/she will get less than 50 points out of 100.	
Learning outcomes: The main learning outcomes include understanding of GIS terminology, practical skills in basic geodata processing in GIS software. In particular, the skills involve data editing and creation of map layouts.	
Brief outline of the course: <ul style="list-style-type: none"> - Basic GIS terminology (eg. geodata layer, geodata formats, structure of GIS, graphics map elements, attribute table, structure of relational databases) - Basic control elements of GIS software (add and configure a data layer and properties, zooming, adjusting color data layer, display and basic work with attribute tables) - Prepare and connect an external database with the data layer - Set the legend (selection of cartographic methods of spatial information) - Creating map layouts and advanced graphics tools for creating map layouts

Conditions for course completion:					
Learning outcomes:					
Brief outline of the course: Atmosphere: 1. Introduction to the study of meteorology and climatology (basic terms and definitions, history of meteorology and climatology in the world and in Slovakia, methods of obtaining data on weather and climate) 2. Atmosphere (composition and vertical division of the atmosphere, temperature and radiation balance) 3. Meteorological elements (solar radiation, air temperature, water in the atmosphere - air humidity, air pressure, air flow - wind) 4. Global atmospheric circulation (tropical and mimotropic circulation, air masses and atmospheric fronts) 5. Global climate (Earth's climate system, climate classifications in the world and in Slovakia) 6. Climate change (climate change in the geological history of the Earth, current climate change) In the study of biogeography we will focus on the biosphere as a part of the physical-geographic sphere. Further focus will be put on the function and position of organisms on the surface, as well as the main regularities of their distribution throughout the world. Phytogeographical and zoogeographical regions of the world and Slovakia. In the practical part students acquaint with the soil profiles and important kinds of plants in Slovakia.

Conditions for course completion: Conditions for course completion: Final assessment and active participation in classes - min. 75%.	
Learning outcomes: Learning outcomes: Increasing physical condition and performance within individual sports. Strengthening the relationship of students to the selected sports activity and its continual improvement.	
Brief outline of the course: Brief outline of the course: Within the optional subject, the Institute of Physical Education and Sports of Pavol Jozef Šafárik University provides for students the following sports activities: aerobics, basketball, badminton, floorball, yoga, pilates, swimming, body-building, indoor football, self-defence and karate, table tennis, sports for unfit persons, streetball, tennis, and volleyball. In the first two semesters of the first level of education students will master basic characteristics and particularities of individual sports, motor skills, game activities, they will improve level of their physical condition, coordination abilities, physical performance, and motor performance fitness. Last but not least, the important role of sports activities is to eliminate swimming illiteracy and by means of a special program of medical physical education to influence and mitigate unfitnes. In addition to these sports, the Institute offers for those who are interested winter and summer physical education trainings with an attractive program and organises various competitions, either at the premises of the faculty or University or competitions with national or international participation.
