Course ID: KPO/ ZPKOM/10	Course name: Fundamentals of Political Communication
Course type, scope and the method: Course type: Lecture / Practice Recommended course-load (hours): Per week: 1 / 1 Per study period: 14 / 14 Course method: present	
Number of ECTS credits: 2	
Recommended semester/trimester of the course: 1., 3.	
Course level: II.	
Prerequisites:	
Conditions for course completion: The student is allowed a maximum of two absences. In the case of more than two absences, the student does not meet the requirements for successful completion of the course. In the event of any attendance issues, the student shall, on his/her own initiative, contact the instructor with information about his/her absence. The course is taught primarily in a face-to-face format, supplemented by distance learning tools. Opportunity to earn points towards the grade for activity during class. Continuous evaluation: The continuous evaluation of the course consists of two levels. First, students will participate in analyses and assessments of the political communication of selected domestic and foreign political actors with the participation and moderation of the lecturer. The activity will take place twice per semester, with an emphasis on analyzing the elements and tools of direct and indirect communication, recognizing communication techniques, and identifying media strategies. Students may earn a total of 10 points on the first level of the interim assessment. Students will also prepare independent outputs related to activities analyzing and shaping political communication five times per semester. These will be uploaded to the lms.upjs.sk platform on the relevant course page (below). They will also present their outputs in seminars. Students can earn a total of 10 points in the second level of the continuous assessment. The continuous assessment thus consists of a total of 20 points (min. 12 points). Completion of the mid-term assessment is a condition for admission to the course examination. In the event that the student does not attend the seminar at which he/she is to present the selected topic, he/she is obliged to notify the course lecturers of this fact and to arrange an alternative assignment. The student has the opportunity to earn points towards the grade for activity during class. The course is taught primarily in a face-to-face format, supplemented by distance learning tools. Final Assessment: The final assessment will take the form of a simulated student output on a pre-selected topic. The student may receive 10 points (min. 6 points) from the final assessment. The output will simulate a public press conference. The specified time for one output is approximately 8-10 minutes. There will be four basic levels assessed in the outputs:	

<p>The content of the speech and the topic (interestingness and conception of the topic, how the student works with factuality, appeal to emotion, how he/she combines information, what conclusions he/she draws, etc.)</p> <p>The form of the speech (adaptation of the topic and rhetoric to the audience, expression, logical structure of the speech, etc.)</p> <p>Eye contact, presentation (how the student works with verbal and non-verbal tools of communication, persuasiveness of the output)</p> <p>Ability to interact with the speaker (asking questions, ability to respond to the delivered output from the perspective of the journalistic community)</p> <p>Each output will be followed by a space for questions to which the speaker should be able to respond. The student may earn a total of 10 points for the output.</p> <p>Summary of Evaluation:</p> <p>A: 30-27.5; B: 27-24.5; C: 24-21.5; D: 21-18.5; E: 18-15.5; FX: less than 15</p>
<p>Learning outcomes:</p> <p>The aim of the course is to provide students with an overview of communication at different levels of politics and in the work of different political organisations. Upon completion of the course, students will be able to explain different approaches in the field of communication, information processing and evaluation, as well as media strategies and communication techniques. The student will acquire the theoretical knowledge to analyse communication strategies within the political system and electoral campaigns.</p>
