COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Medicine	
Course ID: Dek. LF UPJŠ/APV-DK +Z/22	Course name: Active presentation of results at a national conference with international participation
Course type, scope and the method: Course type: Recommended course-load (hours): Per week: Per study period: Course method: present	
Number of ECTS credits: 5	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: Active presentation of results at a national conference with international participation. The doctoral student states the activity in the doctoral annual report and these activities are relevantly documented (e.g. publication, program).	
Learning outcomes: By actively participating in a scientific conference, the doctoral student demonstrates a high level of knowledge and ability to identify, evaluate, correctly apply scientific knowledge and research methods. Demonstrates competence to use existing knowledge and generate new original scientific knowledge that he can critically analyse and communicate to a wider audience by adequate means (e.g. lecture, poster).	
Brief outline of the course:

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Medicine	
Course ID: 1. KK/ KaA/22	Course name: Cardiovascular Medicine
Course type, scope and the method: Course type: Seminar Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of ECTS credits: 5	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: During the semester, the student will prepare two presentations on current research issues in cardiology and angiology and present them at scientific seminars of the research group or at educational seminars of the clinic.	
Learning outcomes: Learning basic cardiological and angiological examination methods, diagnosis and therapy of the most important cardiovascular diseases.	
Brief outline of the course: <ul style="list-style-type: none"> - Practical study of non-invasive cardiological investigation methods (ECG, Holter ECG monitoring, ergometry, echocardiography, Doppler angiological examinations, head-up tilt test, TESP). - Theoretical basics of invasive cardiology diagnostics (coronary angiography, electrophysiological testing, implantable coronary recorders). - Fundamentals of diagnosis and pharmacotherapy of cardiovascular diseases (IHD, hypertension, heart failure, arrhythmias, coronary artery disease, coronary artery disease, coronary artery disease, venous artery disease). - Theoretical basis of interventional procedures in cardiology and angiology (percutaneous coronary interventions, peripheral vascular angioplasty, ablative arrhythmology procedures, pacing techniques).

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Medicine	
Course ID: KHO/ HEMAT/22	Course name: Hematology
Course type, scope and the method: Course type: Seminar Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of ECTS credits: 5	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: During the semester, the student prepares two presentations on current research issues in hematology and presents them at scientific seminars of the research group or at educational seminars of the clinic.	
Learning outcomes: Acquisition of basic knowledge of diagnosis, treatment and prognostic stratification of diseases of the blood, hematopoietic organs and lymphatic system.	
Brief outline of the course: - Familiarity with the classification and prognostic criteria of malignant and autoimmune blood diseases. - Acquire theoretical and practical knowledge in basic and special diagnostics (cytological, cytochemical and immunophenotypic examinations of bone marrow and blood, immuno-haematological and immunological examinations of erythrocytes, lymphocytes and platelets, haemostasis examinations, special biochemical examinations). - Comprehensive treatment of haematological diseases (cytostatic therapy, immunosuppressive and immunomodulatory therapy, haem replacement therapy, anticoagulant therapy, other pharmacotherapy and other therapeutic procedures) - Procedures in the diagnosis and treatment of bleeding disorders and thrombophilic conditions.

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Medicine	
Course ID: Dek. LF UPJŠ/O-1.-DC/22	Course name: Responses to the scientific work in which the doctoral student is as the 1st author - registered in a national scientific journal
Course type, scope and the method: Course type: Recommended course-load (hours): Per week: Per study period: Course method: present	
Number of ECTS credits: 5	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: Responses to the scientific work in which the doctoral student is as the 1st author - registered in a national scientific journal. The doctoral student states the activity in the doctoral annual report and these activities are relevantly documented (e.g. publication, program).	
Learning outcomes: Gaining feedback in domestic journals demonstrates well-founded and accepted scientific knowledge at the national level in the field of research.

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Medicine	
Course ID: Dek. LF UPJŠ/O-1.-SCI/Scopus/22	Course name: Responses to the scientific work in which the doctoral student is as the 1st author - registered in databases SCI or Scopus
Course type, scope and the method: Course type: Recommended course-load (hours): Per week: Per study period: Course method: present	
Number of ECTS credits: 20	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: Responses to the scientific work in which the doctoral student is as the 1st author - registered in databases SCI or Scopus. The doctoral student states the activity in the doctoral annual report and these activities are relevantly documented (e.g. publication, program).	
Learning outcomes: Gaining SCI/Scopus feedback demonstrates broad and well-founded scientific knowledge in the field. At the same time, citation in an indexed source demonstrates the competence to communicate new knowledge at the highest expert level and points to the international importance of the cited research.

Course ID: 1. IK/RaI/22	Course name: Rheumatology and Immunology
Course type, scope and the method: Course type: Seminar Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of ECTS credits: 5	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: During the semester, the student prepares two presentations on current research issues in rheumatology or immunology and presents them at scientific seminars of the research group or at educational seminars of the clinic.	
Learning outcomes: Study of basic examination methods in rheumatology, diagnosis, differential diagnosis of autoimmune, degenerative and metabolic diseases of the musculoskeletal system.	
Brief outline of the course: - Basics of examination methods in rheumatology, practical acquaintance with laboratory examinations, X-ray diagnostics, densitometric examination. - Diagnosis and pharmacotherapy of rheumatological diseases (systemic connective tissue diseases, rheumatoid arthritis, seronegative arthritis, gout, osteoarthritis, osteoporosis). - Interpretation of the results of immunological examinations with regard to autoimmune diseases. - Basic principles of immunosuppressive therapy, indications, contraindications and adverse effects.
