The detailed evaluation method is published in the AIS.	
Learning outcomes: By completing the subject, the student will get: <ul style="list-style-type: none"> - knowledge of the classification and design of probabilistic algorithms, - basic knowledge of the principles of quantum computers and their differences compared to classical computing models, - knowledge and skills about the design and functioning of quantum computing and become familiar with the most well-known algorithms, = basic quantum computer programming skills.	
Brief outline of the course: <ol style="list-style-type: none"> 1. Introduction to quantum quantum computers. Basics of classical complexity theory. 2. Boolean circuits and their basic properties. 3. Probability algorithms. 4. BPP class and probability testing. 5. Basic properties of circuits and Fermat's test. 6. Miller - Rabin's test and the position of the BPP class in the hierarchy of complexity models. 7. Introduction to quantum computing and mathematical foundations of quantum theory. 8. Spectral representation of self-adjoint operators. 9. Quantum states and Hilbert vector spaces. 10. Basic quantum operators and basic quantum algorithms. 	

11. Quantum teleportation, superdense coding and Grover's algorithm.
12. Fourier transformation.
13. Shor's algorithm.

Course level: II., N	
Prerequisites:	
Conditions for course completion: Oral examination.	
Learning outcomes: To give students theoretical background in computational complexity and theory of NP-completeness.	
Brief outline of the course: 1: Introduction: the notion of computational complexity, computational time, computational model, example - the problem of sorting, computational complexity as an asymptotic function 2: Basic computational models: RAM and RASP computers, the cost of an elementary step on these computers, single-tape Turing machine, multi-tape Turing machine, nondeterministic variants of these computational models, transformations among these models with respect to the time complexity 3: The classes P and NP: basic definitions, presenting (un)undirected graphs on the input, 3COL – the set of all 3-colorable graphs is in NP, 2COL - the set of all 2-colorable graphs is in P, SAT – the set of satisfiable Boolean formulas is in NP, CNF-SAT - Boolean formulas in conjunctive normal form 4: Variants of P and NP: decision problem, the problem of finding a solution, optimization problem, polynomial conversions among different variants 5: NP-completeness: reducibility in polynomial time and its transitivity, definition of the NP-completeness and its basic properties 6: NP-completeness of SAT 7: Variants of SAT: 3CNF-SAT - satisfiability of Boolean formulas in 3-conjunctive normal form, kCNF-SAT, CNF-SAT - satisfiability in k-conjunctive (conjunctive) normal form, 2CNF-SAT is in P 8: 3COL and its variants: 3COL (the problem of coloring vertices of a graph with 3 colors) in NP-complete, consequently: for each $k > 3$, kCOL (the problem of coloring with k colors) is NP-complete as well 9: Colorability of a planar graph with three colors: presenting a planar graph on the input, the proof of NP-completeness, coloring with a larger number of colors 10: Another NP-complete problems: Exact set cover, Clique, Vertex cover	

11: Hamiltonian path: Hamiltonian path in a directed and in undirected graph 12: Subset-sum-like problems: Subset Sum - the problem of whether any subset of the integers sum to precisely a target sum, Partition - the problem of whether a given multiset of positive integers can be partitioned into two subsets with equal sums, a “more relaxed” version of Partition - achieving an approximate equality of the sums, distribution of tasks among K parallel processors 13: Beyond P a NP: a review of the basic complexity classes - L, NL, P, NP, PSpace , NPSpace, ExpTime, NExpTime, ..., simulation of (non)deterministic space in (non)deterministic time, conversions in opposite directions 14: PSpace: QBF - true quantified Boolean formulas, prenex normal form, Pspace completeness of QBF, PSpace = NPSpace

Recommended semester/trimester of the course: 1.	
Course level: II.	
Prerequisites:	
Conditions for course completion: Continuous assessment: Preparation, active participation 40 %: Every student MUST have their own copies of the book by Neale and Krutnik, materials, their own written preparation and be prepared to discuss them. Otherwise they will be considered absent. Each student is expected to read articles provided by the lecturer and contribute actively to seminar discussion and analysis by presenting information, ideas and comments. Written project 60 %: Comparative analysis of two sitcoms. Individual students will prepare a comparative analysis of two samples of sitcoms. Selection of the samples has to be approved by the lecturer. Final mark 100% (Preparation, active participation 40 %, Comparative analysis 60 %) Minimum pass mark is 65 %. A 100-93% B 92-86% C 85-78% D 77-72% E 71-65% FX 64 and less.	
Learning outcomes: Introduction to the subject of television comedy, to contemporary debates about television comedy and its effects. Location of the study of television comedy in the wider context of the study of humour in social and aesthetic life. Reflection of British society in television comedy. Importance, functions, discourse and aspects of television comedy. Contemporary forms of television comedy with the focus on the sitcom and the stand-up/sketch based show. Critical analysis of examples of television comedy.	
Brief outline of the course: After an introductory lecture, individual forms of television comedy will be discussed and analysed. Handouts represent a part of material needed for the course and you will be asked to make your own copies from a master copy provided by the lecturer. Course organisation: Week 1 Introductory Week. Week 2 Reading week. Week 3 Importance, functions, and discourse of television comedy. Contemporary forms of television comedy. Social aspects in television comedy. Week 4 Critical analysis: Family / work setting - class, gender, race, nationality, homosexuality in Fawlty Towers. Critical analysis: Family setting – class and gender in Keeping Up Appearances.

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: KAaA/ USCU/09	Course name: Contemporary USA
Course type, scope and the method: Course type: Practice Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of ECTS credits: 3	
Recommended semester/trimester of the course: 1.	
Course level: II.	
Prerequisites:	
Conditions for course completion: Student evaluation is based on three criteria: TWO CREDIT TESTS 70%; and ATTENDANCE AND ACTIVE PARTICIPATION 30%. To receive credits for this course, students must pass the two credit tests; continuously and timely submit their reports and attend each class according to the schedule. Attendance is followed during the online sessions too. TESTS constitute 70% of the final mark: Ordinarily, student coursework is evaluated by letter grades, which are assigned a value based on a 100-point scale gained from two credit tests plus points for continuous preparation and active participation. The final mark is assigned according to the following scale: A 100-93 B 92-86 C 85-78 D 77-72 E 71-65 FX 64-0 Students who are unable to take a credit test at the scheduled time due to a documented condition should contact the lecturer as soon as the need is apparent to discuss make-up examination accommodations and procedures. Students absent from a scheduled credit test will be examined by the lecturer separately in an ORAL EXAM to collect information about their level of preparedness. Oral exams will be realized during the lecturer's consultation hours as soon as possible after the missed credit test. The content of the oral examination will be equivalent with the content of the missed credit test but may last longer than a written test and can include deeper analysis of certain problem areas of the course. ATTENDANCE AND ACTIVE PARTICIPATION constitute 30% (maximum 30 points) of the final mark: All students must attend all classes regardless they are organized face-to-face or online. Students must join the class sessions on time. Should anyone miss the first ten minutes of a class, will be marked as absent from the class. Points for active participation will be assigned only when the student actively contributes to the learning process during the sessions by joining discussions!	

Volunteer work in extracurricular activities that are organized by the Department of the British and American Studies which clearly contribute to the students' professional development such as: lectures and workshops, career week activities, organization of open-door days, language competitions, conferences, Olympiads, and other similar activities are fully supported! Should these activities be organized during the regular session times, volunteers will be assigned the points for active participation as if they had participated in the regular class session.

ABSENCE DUE TO ILLNESS

A student absent from a class must file a valid doctor's certificate by emailing it in a PDF format to the lecturer as soon as possible. Due reports for the missed class must be submitted according to the syllabus of the course and no later than the following class attended by the student.

In an emergency, if the student is unable to contact the lecturer and mail the valid doctor's certificate or is being treated elsewhere, the lecturer must be informed by sending an email to the following email address: julius.rozenfeld@upjs.sk as soon as possible. In both cases, the student must also file a letter from a physician certifying the date and nature of the illness.

ABSENCE FOR OTHER REASONS

Students who must be absent for reasons other than illness, such as a death in the family or a reason of similar gravity, must contact the lecturer as soon as possible and submit relevant documents that certify the seriousness of the case.

There may be other activities which can validate missing a class or several classes, for example participation in high-quality international competitions, scientific research, conferences, or other relevant activities, which clearly contribute to the professional development of the student but final decision about the validity of the presented excuse fully falls in the lecturer's competency. Regular full-time or part-time employment is not an acceptable excuse for a missed class.

COVID-19 regulations:

Changing pandemic situation requires continuous adaptation. Online sessions organized via Microsoft Teams are the preferred alternative to in-person sessions if necessary. Attendance will be duly followed on online meetings too. Tests – if required for the completion of course – are also planned flexibly. Normally, the first credit test takes place during the 6th week of the term with a second credit test on the 12th week, but changes may apply. If necessary, these test dates can be changed according to the pandemic situation or replaced by online tests the form and content of which are comparable with a normal paper-based test. Students are required to follow the department's noticeboard and inform themselves continuously about the possible changes!

Learning outcomes:

The course provides an overview of the United States. Students will understand the current dynamics of American culture by studying a wide range of topics from geographical diversity to political and social issues. Part of the course focuses on US citizenship, visa questions, job and travel opportunities for college students. In cooperation with American diplomatic bodies and cultural institutions, students will have the opportunity to understand their functioning and their contribution to the Slovak-American economic, political and cultural cooperation. Students are guided to critical thinking and are required to use analytical methods and techniques in their work. They are able to actively implement the acquired knowledge in the field of cultural and economic diplomacy as interpreters and translators, or as employees of various diplomatic bodies.

Brief outline of the course:

1. Introduction to the topic of contemporary USA
2. The American landscape, cities and transportation
3. American culture and American values, ethics, philosophy and religion
4. The American legal system, the courts and their functioning
5. American domestic policy and American government

6. Economy and trade in the United States of America
7. Work and business in the USA
8. The American education system
9. Healthcare, retirement, and unemployment in the USA
10. Entertainment and American media

Number of ECTS credits: 2	
Recommended semester/trimester of the course: 3.	
Course level: II.	
Prerequisites: KAaA/MPPb/15	
Conditions for course completion: 1. Compulsory participation in the introductory organizational and information seminar. 2. Compulsory participation in observations and analysis of classes in the training school. 3. Completion of 6 classes of observations and analysis of classes with a practicing teacher. 4. Completion of 18 separate teaching of classes and analysis of the classes under the guidance of a practicing teacher. 5. Submission of documentation on activities during Continuous practice I. (6 observation records, 18 written preparations for lessons, statements of observations and teaching of the student teacher during Continuous practice I., a report on the activities during Continuous practice I, an evaluation of the teaching during the continuous practice of the student teacher).	
Learning outcomes: The student will be able to: plan and implement the teaching process; present his/her own psychodidactic and professional-didactic concepts of teaching in real classroom conditions; apply didactic skills in English language teaching acquired by observation during the previous pedagogical practices. Evaluate his/her own design of the lesson and the level of his/her own professional competencies (areas: the learner, the educational process, professional development) in the context of pedagogical theory and evaluation of the practicing teacher.	
Brief outline of the course: Observation and analysis of English language lessons and individual pedagogical outputs of the student teacher in the lesson under the guidance of a supervising teacher. Written preparation and implementation of teaching practice in classes, active participation in extracurricular and after-school-activities. Analysis of the course of the Continuous practice I. from the didactic point of view.

Course ID: KAaA/ COLGm/21	Course name: Corpus Linguistics
Course type, scope and the method: Course type: Lecture / Practice Recommended course-load (hours): Per week: 1 / 1 Per study period: 14 / 14 Course method: present	
Number of ECTS credits: 2	
Recommended semester/trimester of the course: 2.	
Course level: I., II.	
Prerequisites:	
Conditions for course completion: 1. Continuous assesment - BNC Frequency list - 50% - corpora compilation Sketchengine- 50% 2. Final assesment - ONLINE written exam The minimum to pass is 65%. It is a condition for the final exam. Since it is a continuous assessment, there is no retake. In the case the students fail to achieve the required percentage in continuous assessment they will not be allowed to take part in the final exam test and they fail the course. The final exam will be mediated via MS Teams. Students are free to choose the preferred mobile equipment for this purpose (mobile phones, tablets, laptops, etc.) but they are responsible for the readiness of the device to be used (technicalities, charged device, etc.). The tutor of the course will make use of any available option to prevent students from cheating during the test. Any identified cheating attempt will result in 0 test score and the student will be reported to the management of the Department and the Faculty.	
Learning outcomes: Course description The course consists of lectures and seminars. Both classes will be conducted in the distant form. For both lectures and seminars, students are supposed to be present on time not to hinder the fluency of the teaching process. If a student fails to attend a lecture/seminar it is their duty to obtain the respective information from their colleagues. Students are not allowed to record either lectures or seminars. Seminars are obligatory for all students. Students are expected to attend each class, however, a student can be absent twice without a need to justify his or her absence, The aim is to introduce corpus linguistics as a research method for descriptive and applied linguistics. To this end, the corpus consists of two parts: i. theory, which reviews the history of corpus linguistics and the basic stages of corpus building and annotation; and ii. practice, which is a series of hands-on sessions where the main corpus tools are exercises by use of a selection of free-access corpora, dictionaries, and concordancers and concordancer-related tools. The course aims at enabling students to: iii. understand the principles of corpus-based research;	

- iv. successfully the right corpus-related tools for their needs; and
- v. train in the basic stages of data collection, sampling and preparation.

Brief outline of the course:

1. An introduction to corpus linguistics
 - 1.1 What is corpus linguistics?
2. Computerised corpora
 - 2.1 The state of the art in corpus linguistics.
 - 2.2 The linguistic exploitation of computerised corpora
3. The size of corpora and its importance
 - 3.1 Computational tools and methods for corpus analysis
4. Corpus design, annotation and compilation
 - 4.1 Compilation of spoken corpora
 - 4.2 Compilation of written corpora
 - 4.3 Compilation of web-based corpora
5. Data retrieval
 - 5.1 Frequency lists
 - 5.2 Key-words
 - 5.3 n-Grams
 - 5.4 Collocations
6. Software tools and their development
 - 6.1 KWIC, Longman Mini-Concordancer, WordSmith, Mark Davies,
 - 6.2. BNC Sampler-based frequency list
7. Data processing
 - 7.1. Data collection
 - 7.2. Data sampling
 - 7.3. Data preparation
8. Manual versus Automatic annotation of selected data
 - 8.1 XML
 - 8.2 POS-tagging
9. Assignment - build you own corpora
 - 9.1 (Online access to) major corpora, frequency lists and dictionaries
 - 9.2 sketch engine
10. Corpus analysis of linguistic characteristics
 - 10.1 Morphology
 - 10.2 Lexicology
 - 10.3 Semantics
 - 10.4 Phraseology
 - 10.5 Grammar/Syntax
11. Classroom applications of corpus analysis
 - 11.1 Corpus-based research
 - 11.2. Corpus-driven research
12. Other applications of corpus analysis

Course ID: KPPaPZ/VPU/17	Course name: Developmental Psychology for Teachers
Course type, scope and the method: Course type: Practice Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of ECTS credits: 2	
Recommended semester/trimester of the course: 1., 3.	
Course level: II.	
Prerequisites:	
Conditions for course completion: active participation in seminars - 20% seminar work according to the current instructions on the electronic bulletin board- 40% final test - 40% Detailed and updated information will be posted on the electronic board	
Learning outcomes: The graduate will understand the principles of developmental psychology, and will be able to characterize the norm in separate developmental stages with a specific focus on the period of school age and adolescence. As part of the seminar work, a students will process current knowledge published in foreign journals. They will have a knowledge about the current social discourse on the topics covered. The graduate will be able to consider various aspects of the possible influence of parents and friends on the development of piupils and apply the knowledge of developmental psychology in the practice of the teacher.	
Brief outline of the course: Determinants and factors of development, cognitive development, personality development. Socialization in separate developmental stages (family, peers, school). Specifics of development in the period of school age, in pubescence and adolescence. Parents and their role in child development. Application of knowledge of developmental psychology in the teacher's practice - communication with students in different developmental stages, creating a teacher-student relationship with respect to the development needs of the student.

Course type, scope and the method: Course type: Practice Recommended course-load (hours): Per week: 3 Per study period: 42 Course method: present	
Number of ECTS credits: 3	
Recommended semester/trimester of the course: 2.	
Course level: II.	
Prerequisites:	
Conditions for course completion: Conditions for ongoing evaluation: 1. Proposal of a thematic plan for teaching informatics at secondary or elementary school extended by 1 disponible hour. 2. Creation of a concept map and specific educational objectives for selected topic of school informatics. 3. Creation of a graded system of tasks for teaching selected topic of school informatics. 4. Proposal for the preparation of a lesson with a 5E inquiry cycle. Conditions for successful completion of the course: Obtaining at least 50% of points for ongoing assignments.	
Learning outcomes: After completing this course, students are able to: a) acquire an overview of the objectives, content, modern methods and aids for teaching school informatics, b) create conceptual map, cognitive objectives and graded tasks collection for selected topic of school informatics, c) create a inquiry-based methodology of teaching a selected topic of school informatics.	
Brief outline of the course: 1. Objectives and content of teaching informatics in primary and secondary schools. State educational program. Informatics textbooks. 2. Maturita on informatics. Examples of school educational programs. Designing own thematic plan. 3. Logical structure of the curriculum, conceptual mapping. Determination of specific educational objectives and creation of a concept map for a selected topic of school informatics (RBT). 4. Educational task, its forms, and parameters. A graded system of tasks. 5. Creation of a graded system of tasks for teaching a selected topic of school informatics. 6. Activating methods of teaching school informatics (discussion and situational methods). 7. Activating methods of teaching school informatics (staging methods, educational games, scientific humor). 8. Activating methods of teaching school informatics (problem teaching, peer learning).	

9. Activating methods of teaching school informatics (project teaching, flipped learning).
10. Inquiry-based learning, inquiry cycle, inquiry skills, levels of inquiry, 5E learning cycle.
11. Formative assessment, cognitive and metacognitive tools. Creating a worksheet with selected formative assessment tools.
12. Creating preparation for a lesson with a 5E learning cycle.

Prerequisites:					
Conditions for course completion: Obtaining the required number of credits in the prescribed composition by the study plan.					
Learning outcomes: Verification of acquired student competencies in accordance with the graduate profile.					
Brief outline of the course: The aim of the state exam is to demonstrate knowledge in the field. The student must demonstrate general knowledge of the sub-areas of the field. At the same time, he must prove that his knowledge in the selected area corresponds to a deeper interest in the selected issue and thus exceeds the standard content and scope of subjects of a given degree. Chairman of the State Commission, guarantor of the study program, resp. the guarantor for the relevant area determines the student's literature, which must be studied for the needs of the state exam

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: KAaA/ FLTM/19	Course name: Foreign Language Teaching Methods for the 21st Century
Course type, scope and the method: Course type: Lecture / Practice Recommended course-load (hours): Per week: 1 / 1 Per study period: 14 / 14 Course method: present	
Number of ECTS credits: 3	
Recommended semester/trimester of the course: 2.	
Course level: II.	
Prerequisites:	
Conditions for course completion: Student evaluation is based on three criteria: TWO CREDIT TESTS 70%; CONTINUOUS PREPARATION 10%, and ATTENDANCE AND ACTIVE PARTICIPATION 20%. To receive credits for this course, students must pass the two credit tests; continuously and timely submit their reports and attend each class according to the schedule. Attendance is followed during the online sessions too. TESTS constitute 70% of the final mark: Ordinarily, student coursework is evaluated by letter grades, which are assigned a value based on a 100-point scale gained from two credit tests plus points for continuous preparation and active participation. The final mark is assigned according to the following scale: A 100-93 B 92-86 C 85-78 D 77-72 E 71-65 FX 64-0 Students who are unable to take a credit test at the scheduled time due to a documented condition should contact the lecturer as soon as the need is apparent to discuss make-up examination accommodations and procedures. Students absent from a scheduled credit test will be examined by the lecturer separately in an ORAL EXAM to collect information about their level of preparedness. Oral exams will be realized during the lecturer's consultation hours as soon as possible after the missed credit test. The content of the oral examination will be equivalent with the content of the missed credit test but may last longer than a written test and can include deeper analysis of certain problem areas of the course. CONTINUOUS PREPARATION constitutes 10% of the final mark (maximum 10 points): Students are expected to prepare reports for each class by reading and processing the study materials and the required literature. Formal requirements for the home assignments: Minimum 2 but maximum 3 pages in Microsoft Word editor: letter type Times New Roman; letter size 12, spacing 1.5, 34 lines with 2865 characters per page with spaces. The report's header must contain the student's name and surname, study group, number of the given week according to the	

syllabus of the course and the title of the topic for the week. The reports must be submitted in Printable Document Format (PDF).

Content requirements for the assignment:

Students must present the content of the reading assignment synthesized in a clear and structured way: highlighting key information and data as well as presenting logical connections between them. The submitted report must represent the student's thorough understanding of the content and the problem area discussed in the reading assignment.

WARNING: Reports must be original work of the author! Any violation of copyright or breach of anti-plagiarism rules and regulations of the university will inevitably lead to disciplinary procedures! Repeated and systematic plagiarism will lead to the loss of credits assigned for completion the course!

Deadline and the format of the report:

Students must mail their home assignments to the following email address: rozenfeld.julius2@atk.sk by Saturday 24:00 each week. The reports must be mailed in PDF format. No other formats are accepted! No late submissions will be accepted unless separately negotiated with the supervisor of the course!

ATTENDANCE AND ACTIVE PARTICIPATION constitute 20% (maximum 20 points) of the final mark:

All students must attend all classes regardless they are organized face-to-face or online. Students must join the class sessions on time. Should anyone miss the first ten minutes of a class, will be marked as absent from the class. Points for active participation will be assigned only when the student actively contributes to the learning process during the sessions by joining discussions!

Volunteer work in extracurricular activities that are organized by the Department of the British and American Studies which clearly contribute to the students' professional development such as: lectures and workshops, career week activities, organization of open-door days, language competitions, conferences, Olympiads, and other similar activities are fully supported! Should these activities be organized during the regular session times, volunteers will be assigned the points for active participation as if they had participated in the regular class session.

ABSENCE DUE TO ILLNESS

A student absent from a class must file a valid doctor's certificate by emailing it in a PDF format to the lecturer as soon as possible. Due reports for the missed class must be submitted according to the syllabus of the course and no later than the following class attended by the student.

In an emergency, if the student is unable to contact the lecturer and mail the valid doctor's certificate or is being treated elsewhere, the lecturer must be informed by sending an email to the following email address: julius.rozenfeld@upjs.sk as soon as possible. In both cases, the student must also file a letter from a physician certifying the date and nature of the illness.

ABSENCE FOR OTHER REASONS

Students who must be absent for reasons other than illness, such as a death in the family or a reason of similar gravity, must contact the lecturer as soon as possible and submit relevant documents that certify the seriousness of the case.

There may be other activities which can validate missing a class or several classes, for example participation in high-quality international competitions, scientific research, conferences, or other relevant activities, which clearly contribute to the professional development of the student but final decision about the validity of the presented excuse fully falls in the lecturer's competency. Regular full-time or part-time employment is not an acceptable excuse for a missed class.

COVID-19 regulations:

Changing pandemic situation requires continuous adaptation. Online sessions organized via Microsoft Teams are the preferred alternative to in-person sessions if necessary. Attendance will be duly followed on online meetings too. Tests – if required for the completion of course – are

also planned flexibly. Normally, the first credit test takes place during the 6th week of the term with a second credit test on the 12th week, but changes may apply. If necessary, these test dates can be changed according to the pandemic situation or replaced by online tests the form and content of which are comparable with a normal paper-based test. Students are required to follow the department's noticeboard and inform themselves continuously about the possible changes!

Learning outcomes:

This course focuses on the issue of teaching grammar in the field of English as a foreign language. The main focus of the course is the demonstration and teaching of modern methods for teaching English grammar and the use of the English language using various techniques. Students will learn techniques for improving English grammar and the grammatical accuracy of their students' writing and speaking. Students will also learn assessment techniques and develop their ability to recognize and correct possible grammatical inaccuracies in the writing and speaking of their students. By completing the course, students will be able to implement the acquired knowledge in everyday pedagogical work, design techniques for the development of grammar and use modern technologies (computers and smart boards) for teaching English grammar.

Brief outline of the course:

1. Introduction into teaching English grammar for teachers of EFL
2. Grammar, grammars, and the traditional teaching of grammar
3. What works in teaching grammar
4. The role of adjectival modifiers
5. Connecting sentences and modifying adjectival
6. Editing and teaching editing skills
7. From rhetoric to grammar, the art of persuasion
8. Meaning of cohesive and transitional devices
9. What should we teach and when
10. How to respond students errors

Prerequisites:	
Conditions for course completion: 1. Attendance - students are expected to attend each class according to the schedule. Should the student miss three or more classes, he/she will not receive credits for the course no matter what his/her overall results are on the tests(s). The student must be on time for class. 2. Active participation, completed homework assignments - students are required to do their best with respect to active participation in seminar sessions. Students are expected to bring their own copies of the required materials and complete the assigned tasks and exercises. Should you fail to bring your own copy or a completed home assignment for a particular seminar, you will be marked as absent. 3. Continuous assessment – students will take 2 written tests. There will not be any re-take tests for the students who fail in one or both credit tests. Final assessment – scores of both tests will be summed up and it must be minimum 65% = a pass mark for the course. Otherwise, the students will not receive credits for the course. The final grade for the course will be based on the following grading scale. A 93-100% B 86-92% C 78-85% D 72-77% E 65-71% FX 64 and less.	
Learning outcomes: Different aspects of Anglo-American relations will be discussed and analysed. The apparent cooperation in the fields of foreign and security policy will be assessed. The course illuminates “private” relations between the Anglo-American nations, as well as the importance of the personal relationships between the individual Presidents and Prime Ministers. For a better understanding of Anglo-American Affairs the common backgrounds of the two countries are assessed historically, culturally and in terms of language. The course will examine whether the concept of a Special Relationship in current Anglo-American relations is still a de facto reality or just a myth.

Course type, scope and the method: Course type: Practice Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of ECTS credits: 3	
Recommended semester/trimester of the course: 2.	
Course level: II.	
Prerequisites:	
Conditions for course completion: Continuous assessment: 1. Attendance: Attendance is compulsory in both online and in-person classes. Each student is allowed 2 absences at most. Important information regarding the final evaluation and the course in general will be discussed during the introductory session, therefore, failing to attend the Week 1 introductory session is ALSO COUNTED AS AN ABSENCE. Not logging into an online class is COUNTED AS AN ABSENCE. More than two missed seminars will result in failing the course, irrespective of exam or essay results. Students must be on time for class. 2. Active participation (20 points): Students are required to do their best with respect to active participation in seminar sessions. Students are expected to bring their own ANNOTATED copies of the required materials, complete the assigned tasks and exercises (available on UPJS OneDrive/ MS Teams and during the lessons) and participate in class discussions. Throughout the semester, students will be awarded points for actively participating in class discussions. Each student can earn up to 3 active participation points per seminar session. 3. Presentation (20 points): Students will be asked to give a group presentation on two of the compulsory novels. Students' presentations will take place in Week 5 or Week 6. Students must NOT read their presentations, but must be ready to speak in their own words. Each member of the group will receive the same number of points, so students are advised to cooperate closely. Details about the presentations will be discussed during the introductory seminar. 4. Seminar paper (60 points): Students will be asked to submit a final paper discussing two of the compulsory novels. Before they start working on their own paper, they will be asked to review a paper on the topic written by an AI text generator. This review will be written in class in Week 4 (200-300 words, 10 points). The seminar paper itself will be submitted twice: a first draft (deadline: March 30, min 750 words, 15 points) and a final draft (deadline: May 11, min 1250 words, 35 points). Details on the content and form of the paper will be provided during the introductory session and throughout the course. Seminar papers must conform to the guidelines of academic writing and must NOT be plagiarised. No part of the paper may be produced by AI text generators. Using material produced by AI text generators will be considered plagiarism. Plagiarised papers will be awarded 0 points. Students will NOT be given the option of rewriting plagiarised papers. To pass the course, the SUM of all points (active participation + presentation + seminar papers) must be no less than 65 points.

Learning outcomes:

This graduate course is designed to serve as a continuation of the compulsory courses on the history of British literature from the undergraduate programme. During the course, students will get acquainted with a number of "contemporary classics" - i.e., with important novels published in the 21st century. Students will be guided to think about how contemporary literature reflects the globalized world of today. Specifically, they will focus on themes of place and geography, identity construction and identity conflict, race and ethnicity, migration, as well as on literary representations of the tension between marginalised local, regional, rural spaces and globalised urban environments. As this is a graduate level course, students will be asked to work on their own or in teams and thus gain the ability to study literary works with minimum guidance from the lecturer. For this reason, students will be divided into study groups at the beginning of the semester, and each study group will focus on different novels. Students will also continue to develop their basic academic skills (close reading of literary texts, analysis, comparative analysis, synthesis, formulation of academic arguments) and improve their ability of critical thinking.

Course ID: KAaA/ INFm/15	Course name: Interpretation of Films
Course type, scope and the method: Course type: Practice Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of ECTS credits: 3	
Recommended semester/trimester of the course: 4.	
Course level: II.	
Prerequisites:	
Conditions for course completion: To successfully complete the course, students are encouraged to perform well on two levels of assessment: continuous and final. Continuous assessment requires active participation and performance in each lesson, including participation in discussions based on reading required texts and watching assigned films. However, students are expected to not only engage with individual texts/films but also to evaluate them, evaluate authors' messages, recognize the potential implications of the text within historical, cultural and social contexts, identify different perspectives, and make inferences about authors' messages in the form of a short written assignments prepared on a weekly basis. Students are also highly encouraged to challenge arguments presented in the texts/films. These assignments will be rewarded with 30% of the overall evaluation. Unprepared students who have not read/watched the assigned materials prior to each class will be marked as absent and their performance evaluated with an Fx. To complete the course, students must also successfully pass the essay-question test at the end of the course. The test comprises 70% of the final grade. Attendance: Students are expected to attend each class according to the schedule, which applies to online classes too. No transfers among the groups are allowed. Should students miss three or more classes, they will not receive credits for the course no matter what their overall results are. The course is currently conducted in person; however, the format of individual classes may be subject to changes. Assignment Assessment Criteria : Students are advised to consider the following evaluation criteria to assess their preparation for assignments. Students will be evaluated based on their ability to communicate and organize information from primary and secondary sources according to the following requirements: A-B The student can effectively communicate and synthesize information from primary sources, explaining their relevance within the historical context with clarity and depth C-D: The student can communicate and organize information from the source but has not yet fully synthesized the acquired information with the historical context.	

E:

The student communicates information from sources, but it is fragmented or used inappropriately (e.g., misquoted, taken out of context, or incorrectly paraphrased).

Fx:

The student cannot effectively communicate information from sources or communicates incorrect information.

FINAL EVALUATION SCALE :

A 93-100%

B 86-92%

C 78-85%

D 72-77%

E 65-71%

FX 64 and less

Learning outcomes:

The course is designed to instruct students in the art of cinematic discourse and provide them with a set of information to help them develop and/or improve essential analytical skills in interpreting contemporary American cinema. It also invites students to participate more judiciously in the analysis of American cinema with the intention to enable them to question their role as passive spectators and increase their ability to watch films actively and critically.

Course content:

This course will examine significant issues in film theory and contemporary approaches to understanding the film. Since the 1970s, scholars have developed a variety of critical methods for studying media texts. This course focuses on the most viable ones to provide students with the tools necessary to interpret films as socio-cultural and ideological productions.

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: KAaA/ ACW1m/15	Course name: Language Skills - Academic Writing
Course type, scope and the method: Course type: Practice Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of ECTS credits: 3	
Recommended semester/trimester of the course: 1.	
Course level: II.	
Prerequisites:	
Conditions for course completion: Attendance and Participation: You may miss one class without penalty. If you miss two or more, you will fail the course. If you are repeatedly late, you will not be allowed to complete the course. You are expected to contribute to the class discussion and to provide insightful comments on the readings and on your classmates' work. I will lower your grade by one letter if you are consistently silent, disengaged, or unprepared. Covid will be treated like any other illness, so you must provide a doctor's note if you miss class. Students affected by the war may attend online if approved by the head of the department. Drafts, Deadlines, and Late Work: Throughout the course, I will encourage you to write multiple drafts of each paper. Writing multiple drafts will improve your writing and take some of the stress out of the final deadline. Ideally, you will have a well developed rough draft well before the deadline, so you should always be able to get something in. Your work will be read and critiqued by your fellow classmates, so please make your drafts as complete as possible and come prepared for a lively discussion. Late work will not be accepted. If any draft or paper is late, you will fail the entire course. Continuous Assessment: You will write two short papers, three pages each, and one long paper of at least eight pages. A page means approximately 330 words. The final paper may be a revision of one of the short papers. For each paper, I will break down your overall grade into four categories: Concept, Structure, Language, and Documentation. On your final paper, if you receive an FX in any one of these four categories, you will fail the course. Any paper not properly documented will receive an FX overall. It breaks down like this: Paper 1 25% A 93-100% Paper 2 25% B 86-92% Paper 3 50% C 78-85% D 72-77% E 65-71%	
Learning outcomes:	

To teach grammatical and rhetorical forms, improve students' research and analytical skills, and clarify the conventions of academic discourse with special emphasis on developing a thesis which is complex enough to sustain a graduate level paper.

Course type, scope and the method: Course type: Recommended course-load (hours): Per week: Per study period: Course method: present	
Number of ECTS credits: 14	
Recommended semester/trimester of the course:	
Course level: II.	
Prerequisites:	
Conditions for course completion: The Master degree thesis is the result of the student's own work. It must not show elements of academic fraud and must meet the criteria of correct research practice defined in the Rector's Decision no. 21/2021, which lays down the rules for assessing plagiarism at Pavel Jozef Šafárik University in Košice and its constituents. Fulfillment of the criteria is verified mainly in the process of supervising and in the process of the thesis defense. Failure to do so is grounds for disciplinary action. To obtain the required number of credits in the structure prescribed by the study plan. The state examination board will decide on students' assessment. Final assessment consists of the following elements: Assessment in the supervisor's review - 20 % Assessment in the opponent's review - 40 % Discussion within defense - 40 % Contentual and formal (language) aspect of student's verbal and written presentation of knowledge will be reflected in the final assessment in the following ratio: 80 % : 20%.	
Learning outcomes: The Master degree thesis demonstrates mastery of extended theory and professional terminology of the field of study, acquisition of knowledge, skills and competences in accordance with the declared profile of the graduate of the study program, as well as the ability to apply them in an original way in solving selected problems of the field of study. The student demonstrates the ability of independent professional work in terms of content, formal and ethical aspects. Further details of the Master degree thesis are determined by Directive no. 1/2011 on the essential prerequisites of final theses and by the Study Rules of Procedure at UPJŠ in Košice for the 1st, 2nd and combined 1st and 2nd degree. The aim of the course Master's Thesis Defense is that the students demonstrate their interest in the selected topic, mastering of the topic from both theoretical and practical point of view, as well as the competence to apply acquired knowledge by working independently. Verification of student's acquired competences in compliance with the graduate profile.	
Brief outline of the course: The aim:

Prerequisites:	
Conditions for course completion: Completing the course requires regular consultations with supervisor of master thesis throughout the semester, at least once a week at the time defined by supervisor. Another precondition for completing the course is submission of the final version of master thesis to supervisor (no later than two weeks before deadline for uploading of master thesis to AIS system) who will review the text and assess whether the submitted text complies with essential minimum requirements regarding the content and form of master thesis. If the master thesis complies with all the requirements, the supervisor will give A-E. If the submitted text does not comply with the essential minimum requirements regarding the content and form of master thesis, the supervisor will give FX. A 93-100% B 86-92% C 78-85% D 72-77% E 65-71% FX 0- 64%	
Learning outcomes: The final version of master thesis submitted to supervisor.

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: KAaA/ DIAJmu1/15	Course name: Methodology of English Language Teaching 1
Course type, scope and the method: Course type: Practice Recommended course-load (hours): Per week: 2 Per study period: 28 Course method: present	
Number of ECTS credits: 2	
Recommended semester/trimester of the course: 1.	
Course level: II.	
Prerequisites: KPE/PDU/15 and (KPPaPZ/PaSPP/09 or KPPaPZ/PPgU/15)	
Conditions for course completion: Student evaluation is based on three criteria: TWO CREDIT TESTS 70%; CONTINUOUS PREPARATION 10%, and ATTENDANCE AND ACTIVE PARTICIPATION 20%. To receive credits for this course, students must pass the two credit tests; continuously and timely submit their reports and attend each class according to the schedule. Attendance is followed during the online sessions too. TESTS constitute 70% of the final mark: Ordinarily, student coursework is evaluated by letter grades, which are assigned a value based on a 100-point scale gained from two credit tests plus points for continuous preparation and active participation. The final mark is assigned according to the following scale: A 100-93 B 92-86 C 85-78 D 77-72 E 71-65 FX 64-0 Students who are unable to take a credit test at the scheduled time due to a documented condition should contact the lecturer as soon as the need is apparent to discuss make-up examination accommodations and procedures. Students absent from a scheduled credit test will be examined by the lecturer separately in an ORAL EXAM to collect information about their level of preparedness. Oral exams will be realized during the lecturer's consultation hours as soon as possible after the missed credit test. The content of the oral examination will be equivalent with the content of the missed credit test but may last longer than a written test and can include deeper analysis of certain problem areas of the course. CONTINUOUS PREPARATION constitutes 10% of the final mark (maximum 10 points): Students are expected to prepare reports for each class by reading and processing the study materials and the required literature. Formal requirements for the home assignments: Minimum 2 but maximum 3 pages in Microsoft Word editor: letter type Times New Roman; letter size 12, spacing 1.5, 34 lines with 2865 characters per page with spaces. The report's header must contain the student's name and surname, study group, number of the given week according to the	

syllabus of the course and the title of the topic for the week. The reports must be submitted in Printable Document Format (PDF).

Content requirements for the assignment:

Students must present the content of the reading assignment synthesized in a clear and structured way: highlighting key information and data as well as presenting logical connections between them. The submitted report must represent the student's thorough understanding of the content and the problem area discussed in the reading assignment.

WARNING: Reports must be original work of the author! Any violation of copyright or breach of anti-plagiarism rules and regulations of the university will inevitably lead to disciplinary procedures! Repeated and systematic plagiarism will lead to the loss of credits assigned for completion the course!

Deadline and the format of the report:

Students must mail their home assignments to the following email address: rozenfeld.julius2@atk.sk by Saturday 24:00 each week. The reports must be mailed in PDF format. No other formats are accepted! No late submissions will be accepted unless separately negotiated with the supervisor of the course!

ATTENDANCE AND ACTIVE PARTICIPATION constitute 20% (maximum 20 points) of the final mark:

All students must attend all classes regardless they are organized face-to-face or online. Students must join the class sessions on time. Should anyone miss the first ten minutes of a class, will be marked as absent from the class. Points for active participation will be assigned only when the student actively contributes to the learning process during the sessions by joining discussions!

Volunteer work in extracurricular activities that are organized by the Department of the British and American Studies which clearly contribute to the students' professional development such as: lectures and workshops, career week activities, organization of open-door days, language competitions, conferences, Olympiads, and other similar activities are fully supported! Should these activities be organized during the regular session times, volunteers will be assigned the points for active participation as if they had participated in the regular class session.

ABSENCE DUE TO ILLNESS

A student absent from a class must file a valid doctor's certificate by emailing it in a PDF format to the lecturer as soon as possible. Due reports for the missed class must be submitted according to the syllabus of the course and no later than the following class attended by the student.

In an emergency, if the student is unable to contact the lecturer and mail the valid doctor's certificate or is being treated elsewhere, the lecturer must be informed by sending an email to the following email address: julius.rozenfeld@upjs.sk as soon as possible. In both cases, the student must also file a letter from a physician certifying the date and nature of the illness.

ABSENCE FOR OTHER REASONS

Students who must be absent for reasons other than illness, such as a death in the family or a reason of similar gravity, must contact the lecturer as soon as possible and submit relevant documents that certify the seriousness of the case.

There may be other activities which can validate missing a class or several classes, for example participation in high-quality international competitions, scientific research, conferences, or other relevant activities, which clearly contribute to the professional development of the student but final decision about the validity of the presented excuse fully falls in the lecturer's competency. Regular full-time or part-time employment is not an acceptable excuse for a missed class.

COVID-19 regulations:

Changing pandemic situation requires continuous adaptation. Online sessions organized via Microsoft Teams are the preferred alternative to in-person sessions if necessary. Attendance will be duly followed on online meetings too. Tests – if required for the completion of course – are

also planned flexibly. Normally, the first credit test takes place during the 6th week of the term with a second credit test on the 12th week, but changes may apply. If necessary, these test dates can be changed according to the pandemic situation or replaced by online tests the form and content of which are comparable with a normal paper-based test. Students are required to follow the department's noticeboard and inform themselves continuously about the possible changes!

Learning outcomes:

The course is designed to help students understand and use the concepts of didactics and combine knowledge in this area with the problems of teaching English as a foreign language. Students will gain a general overview of the didactics of teaching English and the special characteristics of foreign language teaching. By completing the course, students will be able to create a work plan, design and implement a lesson for teaching English as a foreign language, select appropriate teaching techniques for the development of vocabulary, grammar, stylistics and pronunciation; understand the principles of work evaluation and implement them in the field of normative and alternative evaluation.

Brief outline of the course:

1. Introduction into Teaching English as a Foreign Language (EFL)
2. Planning Curriculum & Planning Lesson Content
3. Planning Activities and Managing Classroom Interaction
4. Teaching Young and Adolescent Learners
5. Formative and Alternative Assessment & Large-Scale Assessment
6. Techniques for Developing the Listening Skill
7. Techniques for Developing the Speaking Skill
8. Techniques for Developing the Reading Skill
9. Techniques for Developing the Writing Skill

Learning outcomes:

The course is designed to help students understand and use the concepts of approach, method, technique and design and combine their knowledge with areas of teaching English as a foreign language. Students will gain a general overview of the main approaches and methods used in language teaching and will learn to apply this knowledge in their own pedagogical work. By completing the course, students will be able to objectively evaluate the benefits and possibilities of teaching methods, integrate that knowledge in everyday pedagogical work, and professionally evaluate their own pedagogical outputs. Graduates will be prepared to work as a teacher of English as a foreign language.

Brief outline of the course:

1. Introduction into Methods and Approaches of Teaching English as a Foreign Language (ELF)
2. Grammar Translation Method & Audiolingual Method
3. Cognitive Approach & Total Physical Response
4. Natural Approach & Communicative Language Teaching
5. Teaching Proficiency and Reading Through (TPR) Storytelling & Content-Based Instruction
6. Task-Based Instruction & Lexical Approach
7. Integrating Language and Content: CLIL
8. Learning Theories
9. Exploring One's Own Instruction

Prerequisites:	
Conditions for course completion: A student chooses one course only to receive a certificate for its successful completion. The courses are identical in both semesters. Conditions for completing the course: a) regular attendance of sessions and active participation (max. permitted absence: 1x180 min) - 40 % b) group presentation of the topic chosen from the course syllabus during the last session and feedback to team members - 60 %	
Learning outcomes: The course focuses on soft and some hard skills necessary to become successful on the labour market within the shared corporate services centres and its objective is to provide students with a set of effective communication tools. The companies associated within the Business Service Center Forum (BSCF) of the American Chamber of Commerce in Slovakia employ more than 31,000 full-time employees and have identified soft communication skills on one hand as the most important skills but on the other hand as at least developed competences of graduates entering the labour market. The aim of the course is to contribute to enhancement of soft and some hard skills which are necessary for working not only in the shared services centres, but also widely applicable on the labour market. After completing the course, students will be able to communicate more assertively, solve conflicts arising on the workplace, receive and give feedback effectively, but they will also know the basis of working in accounting systems or in programming languages (depending on the actual need of the labour market).	
Brief outline of the course: Modules: Presentation skills Feedback Multi-culture in cross-location teams Verbal & Non - Verbal Communication MS Excel Time Management Final presentations

Course ID: ÚINF/ SVK2/24	Course name: Student scientific conference
Course type, scope and the method: Course type: Recommended course-load (hours): Per week: Per study period: Course method: present	
Number of ECTS credits: 4	
Recommended semester/trimester of the course: 2., 4.	
Course level: II.	
Prerequisites:	
Conditions for course completion: It is required to be registered for the participation on the Student Scientific Conference (ŠVK) in accordance to the Statute of the Student Scientific Conference at PF UPJŠ and the specific conditions for participation in a given year, which are announced by the dean of the faculty. Within one year of the ŠVK, a student or a research team can register in one track only. It is also possible to apply with a written work that is an integral part of a bachelor's or master's thesis or a result of a student support program. The written work at ŠVK is the result of the student's own work or the work of the research team. It must not show elements of academic fraud and must meet the criteria of good research practice defined in the Rector's Decision no. 21/2021, which lays down the rules for assessing plagiarism at Pavol Jozef Šafárik University in Košice and its components. Fulfillment of the criteria is verified mainly in the process of supervision and in the process of work presentation. Failure to do so is reason for disciplinary action. The condition for the evaluation is a successful presentation and defense of the work in the relevant track headed by a commission appointed by the dean of the faculty. The commission decides on the eligibility of credits and states its decision in the memorandum of the ŠVK.	
Learning outcomes: The student demonstrates mastery of extended theory and professional terminology of the field of study, acquisition of knowledge, skills and competences, the ability to apply them creatively in solving selected field problems, ability to present the results using appropriate presentation methods and tools and ability to actively participate in a professional discussion.	
Brief outline of the course: 1. Analysis of the state of the art in the field. 2. Design and implementation of a solution to the researched problem. 3. Evaluation of achieved results. 4. Preparation of work annotation. 5. Processing the written work. 6. Preparation of results presentation. 7. Presentation and defense of the obtained results.

Number of ECTS credits: 2	
Recommended semester/trimester of the course: 2.	
Course level: II.	
Prerequisites:	
Conditions for course completion: Two credit tests are intended for weeks 7 and 13. The date of the test may change, and the students will be notified about the change sufficiently in advance. The tests will verify students' knowledge of materials covered during seminars and assigned for home preparation. In order to pass the subject, the sum of the scores from the two tests must be at least 65%. A student cannot pass or fail a single test, what matters is the final score after they have taken both. There will not be any re-take tests. Regular seminar attendance is expected; more than two absences will adversely affect getting credit and final grade, no matter what student's overall test results are. Students are required to do their best with respect to active participation in seminar sessions. They are expected to bring their own copies of the required materials and complete the assigned tasks and exercises. Should they fail to bring their own copy or a completed home assignment for a particular seminar, they will be marked as absent. The grading standards establish the following criteria for evaluation: 100%-92% A 91%-87% B 86%-82% C 81%-77% D 76%-65% E 64% and less FX	
Learning outcomes: The course is aimed to work with EU legal texts in order to introduce terminological registers, basic translation methods and techniques and various stylistic layers of the texts.
