## COURSE INFORMATION LETTER

<b>University:</b> P. J. Šafárik University in Košice	
<b>Faculty:</b> Faculty of Arts	
<b>Course ID:</b> CJP/ OPAJ/15	<b>Course name:</b> Academic Presentations in English
<b>Course type, scope and the method:</b> <b>Course type:</b> Practice <b>Recommended course-load (hours):</b> <b>Per week:</b> 1 <b>Per study period:</b> 14 <b>Course method:</b> present	
<b>Number of ECTS credits:</b> 2	
<b>Recommended semester/trimester of the course:</b> 1., 3., 5., 7.	
<b>Course level:</b> I., III.	
<b>Prerequisites:</b>	
<b>Conditions for course completion:</b> Active classroom participation, max. 2 absences tolerated (2x45min.). Test (10th week). Oral presentation. Final assessment = test result (50%), presentation (50%) Grading scale in %: A 93-100, B 86-92, C 79-85, D 72-78, E 65-71, FX 64 and less	
<b>Learning outcomes:</b> Students develop practical skills for delivering effective academic presentations in English. They learn to prepare and structure their presentations, including the use of visual aids. The course also helps students expand their active vocabulary and enhance their verbal performance at the B2 level of the CEFR.	
<b>Brief outline of the course:</b> Presentation structure. Presenting graphs, tables, diagrams, pictures, maps and other visuals. Functional grammar - defining, explaining, clarifying, exemplifying, etc. Sign-posting language. Question and answer session. Self-presentation, presentation of the university, study field. Non-verbal communication in presenting (mimics, gestures, eye-contact, room layout, etc.).	
<b>Recommended literature:</b> Erica, J.: Presentations in English. MacMillan, 2008. Burton, G.: Presenting. Deliver presentations with confidence. HarperCollins Publishers, 2013. Powel, M.: Dynamic Presentations. CUP, 2010. Armer, T.: Cambridge English for Scientists. CUP, 2011. Thaine, C.: Cambridge Academic English - Intermediate, CUP, 2012. www.uefap.com	
<b>Course language:</b> English language, level B1/B2 according to CERF

## COURSE INFORMATION LETTER

<b>University:</b> P. J. Šafárik University in Košice	
<b>Faculty:</b> Faculty of Arts	
<b>Course ID:</b> KSP/AUZVP/11	<b>Course name:</b> Active Participation in a Foreign Academic Event
<b>Course type, scope and the method:</b> <b>Course type:</b> <b>Recommended course-load (hours):</b> <b>Per week: Per study period:</b> <b>Course method:</b> present	
<b>Number of ECTS credits:</b> 15	
<b>Recommended semester/trimester of the course:</b> 1., 2., 3., 4., 5., 6., 7., 8., 9., 10..	
<b>Course level:</b> III.	
<b>Prerequisites:</b>	
<b>Conditions for course completion:</b> Presentation of the results of own theoretical and empirical analysis of the dissertation in oral or poster presentation. An active presentation can also take place electronically.	
<b>Learning outcomes:</b> By actively participating in a foreign scientific event, the doctoral student will acquire competencies of various natures. In addition to knowledge of planning and preparation of the paper, he demonstrates a high level of knowledge and ability to identify, evaluate and apply correct scientific methods as well as research methodology in the social sciences. By actively participating in a scientific conference, the doctoral student demonstrates a high degree of ability to identify and formulate a scientific problem. Can interpret a scientific problem using the latest theoretical and empirical knowledge and their critical comparison. Demonstrates the ability to communicate research results to a wider audience by adequate means through a foreign language.	
<b>Brief outline of the course:</b> Active participation in a foreign scientific conference, the content of which is related to the focus of the doctoral thesis. The scientific conference must be organized by a university abroad and must include the scientific and organizing committee of the conference, as well as a professional guarantor. An anthology must be created from the event, which is reviewed by at least two reviewers.

## COURSE INFORMATION LETTER

<b>University:</b> P. J. Šafárik University in Košice	
<b>Faculty:</b> Faculty of Arts	
<b>Course ID:</b> KSP/ DvSP/12	<b>Course name:</b> Diagnostics in Social Work
<b>Course type, scope and the method:</b> <b>Course type:</b> Lecture / Practice <b>Recommended course-load (hours):</b> <b>Per week:</b> 1 / 1 <b>Per study period:</b> 14 / 14 <b>Course method:</b> present	
<b>Number of ECTS credits:</b> 8	
<b>Recommended semester/trimester of the course:</b> 1., 2., 3., 4., 5., 6..	
<b>Course level:</b> III.	
<b>Prerequisites:</b>	
<b>Conditions for course completion:</b> The requirement for completing the course is the completion of education through consulting teaching in the range of min. 7 hours aimed at deepening knowledge about the process of diagnostics / assessment according to the syllabus of the course. Completion is also conditioned by the acquisition of practical skills in diagnostics through the development of a proposal for diagnostic procedures through objective assessment methods in the topic of the dissertation. After elaboration, the proposal is submitted and consulted with the teacher, who evaluates the adequacy of the methods used in the target group. The student obtains the evaluation after fulfilling the conditions of participation and after successful defense of the proposed diagnostic methods.	
<b>Learning outcomes:</b> The course is focused on deepening the knowledge and practical skills necessary for assessing the situation of a client or clients (client group). In terms of knowledge: The student is able to distinguish between various assessment methods in specific life situations of the client, based on an objective evaluation of social conditions. In terms of skills: The student is able to design an assessment plan, evaluate it, and implement it. The student can select and use objective diagnostic methods inherent to standardized diagnostics. In terms of competencies: The student demonstrates the ability to combine knowledge of different social work methods and work with a wide range of target groups. The student can apply multidisciplinary knowledge in assessing and subsequently solving the life situation of the client or client group. The student is able to plan diagnostic procedures and propose their updates.	
<b>Brief outline of the course:</b> Diagnostic model of case social work Diagnosis, assessment and evaluation in the practice of social work Changes in the concept of assessment in the context of the development and present of social work Theoretical-empirical frameworks, starting points and approaches to assessment Assessment process	

Objective assessment methods	
Standardized vs. non-standardized diagnostics	
Social records	
Proposal of a diagnostic plan for the assessment of the client's social problem	
Work with the obtained information and with the anamnesis, proposal of interventions

## COURSE INFORMATION LETTER

<b>University:</b> P. J. Šafárik University in Košice	
<b>Faculty:</b> Faculty of Arts	
<b>Course ID:</b> KSP/ DZS/15	<b>Course name:</b> Dissertation Examination
<b>Course type, scope and the method:</b> <b>Course type:</b> <b>Recommended course-load (hours):</b> <b>Per week: Per study period:</b> <b>Course method:</b> present	
<b>Number of ECTS credits:</b> 20	
<b>Recommended semester/trimester of the course:</b>	
<b>Course level:</b> III.	
<b>Prerequisites:</b>	
<b>Conditions for course completion:</b> Obtaining the required number of credits in the prescribed composition of the study plan according to the study regulations of the doctoral study of the UPJŠ. Preparation and submission of a written thesis for the dissertation examination (minimum thesis).	
<b>Learning outcomes:</b> Verification of the student's acquired knowledge in the overall synthesis concluding the study part of the doctoral degree. Presentation of the essential part of the theory of the dissertation.	
<b>Brief outline of the course:</b> The aim of the dissertation examination is to demonstrate knowledge in the field. The student must demonstrate general knowledge of the sub-fields of the field. At the same time, he must demonstrate that his knowledge in the selected field corresponds to a deeper interest in the selected issue and therefore goes beyond the standard content and scope of the subjects of the given level of study. The chairman of the committee, the guarantor of the study programme, or the guarantor for the relevant field, will determine the literature that the student must study for the needs of the dissertation examination. The educational part of the doctoral study ends with the dissertation examination.

## COURSE INFORMATION LETTER

<b>University:</b> P. J. Šafárik University in Košice	
<b>Faculty:</b> Faculty of Arts	
<b>Course ID:</b> KF/ EaDF/13	<b>Course name:</b> Epistemology and History of Philosophy
<b>Course type, scope and the method:</b> <b>Course type:</b> <b>Recommended course-load (hours):</b> <b>Per week: Per study period:</b> <b>Course method:</b> present	
<b>Number of ECTS credits:</b> 8	
<b>Recommended semester/trimester of the course:</b> 1., 2., 3., 4., 5., 6..	
<b>Course level:</b> III.	
<b>Prerequisites:</b>	
<b>Conditions for course completion:</b> a) regular participation and activity in class b) continuous assessment – 50% of the overall assessment c) online form: oral exam – 50% of the overall assessment face to face form: written exam – 50% of the overall assessment	
<b>Learning outcomes:</b>	
<b>Brief outline of the course:</b> 1) the status of epistemology (theory of knowledge) in philosophy and the philosophical reflexion concerning science and scientific knowledge (historical-philosophical outline) 2) the concept and essence of science. The status of the so-called cognitive sciences in contemporary philosophy and science. 3) from myths to contemporary science – basic epochs and periods. The beginning of modern science and its two conditions: the empirical and mathematical. Science and philosophy. 4) rationalism and empiricism as the epistemic foundation of modern science. R. Descartes and G. W. Leibniz. F. Bacon, J. Locke, D. Hume. Kant and the attempt to overcome the extremes of rationalism and empiricism. 5) the classification of special sciences: factual sciences, formal sciences, social sciences, and the humanities. Science and philosophy and the difference in their philosophical-methodological basis: the problem of thematical differentiation and methodical abstraction. Scientism and anthropologism in philosophy (positivism, neo-Kantianism, phenomenology, and the philosophy of life in the philosophy of the 19th and 20th century). 6) realism and instrumentalism as a possible empirical starting point of sciences (Whitehead, Popper). 7) science and the problem of empiricism and rationalism. The character of scientific knowledge. 8) philosophy and the methodology of science at the turn of the 21st century: methodological purism – methodological anarchism. 9) the problem of truth in contemporary philosophy of science. Classical and non-classical concepts of the correspondence theory of truth. Values and ethical principles in philosophy, science, and scientific knowledge (the Baden school of neo-Kantianism).

<b>University:</b> P. J. Šafárik University in Košice	
<b>Faculty:</b> Faculty of Arts	
<b>Course ID:</b> KSP/ VMZ/11	<b>Course name:</b> Foreign Monograph
<b>Course type, scope and the method:</b> <b>Course type:</b> <b>Recommended course-load (hours):</b> <b>Per week: Per study period:</b> <b>Course method:</b> present	
<b>Number of ECTS credits:</b> 30	
<b>Recommended semester/trimester of the course:</b> 3., 4., 5., 6., 7., 8., 9., 10..	
<b>Course level:</b> III.	
<b>Prerequisites:</b>	
<b>Conditions for course completion:</b> Publication in a foreign publisher or confirmed by a foreign publisher for publication in a scientific monograph or chapter / chapters in a scientific monograph in the range of min. 3AH in a topic closely related to the topic of the dissertation. The student's share for completing the course must be at least 50% (subject to the condition of the author's contribution in the range of at least 3AH).	
<b>Learning outcomes:</b> The result of the training is the demonstration of competence for the preparation of a monograph or chapters in scientific monograph published by a foreign publisher to a specified extent in the topic narrowly related to the topic of the dissertation. By preparing and publishing a monograph, the student demonstrates a high degree of ability to identify evaluate, apply and disseminate relevant scientific information on the basis of foreign standards methods and methodologies in the field of study. Demonstrates the ability to find, define the scientific problem by using scientific methods, their critical and creative application. It proves competence to use relevant theories and concepts in an innovative way, as well as generate new original scientific knowledge that can publish according to established qualitative and ethical standards of the department.	
<b>Brief outline of the course:</b> Elaboration of theoretical and methodological analysis on a topic related to the topic of the dissertation and publication as a separate monograph in a foreign publishing house or as a separate chapter (s) in a monograph published in a domestic foreign country to the required extent.

## COURSE INFORMATION LETTER

<b>University:</b> P. J. Šafárik University in Košice	
<b>Faculty:</b> Faculty of Arts	
<b>Course ID:</b> KSP/SPmes/11	<b>Course name:</b> One-Month Study Stay at a Foreign University/Research Institute
<b>Course type, scope and the method:</b> <b>Course type:</b> <b>Recommended course-load (hours):</b> <b>Per week: Per study period:</b> <b>Course method:</b> present	
<b>Number of ECTS credits:</b> 5	
<b>Recommended semester/trimester of the course:</b> 1., 2., 3., 4., 5., 6., 7., 8..	
<b>Course level:</b> III.	
<b>Prerequisites:</b>	
<b>Conditions for course completion:</b> A necessary study program in a doctoral study program is a necessary condition for completing a one-month stay at a foreign research institute.	
<b>Learning outcomes:</b> Gaining practical experience from the workplace dealing with the issue of dissertation abroad. By completing a month-long stay, the doctoral student demonstrates the ability to participate in solving research problems in their field of science. Demonstrates expertise in the relationship on the topic of his dissertation. He can work critically with resources, he is able to generate new knowledge. He is able to actively communicate and cooperate in solving research tasks in international environment. He acts as a responsible independent scientist, working independently and in a group in order to push the boundaries of knowledge and transfer them to other areas of research, into practice and towards the general public. Can competently argue and explain his / her ideas.	
<b>Brief outline of the course:</b> In terms of content, a month-long stay at a foreign workplace should be aimed at getting acquainted with the theoretical analysis of the dissertation problem with an expert - at least an associate professor in the field of Social Work, which is in line with the research focus of the doctoral student.

## COURSE INFORMATION LETTER

<b>University:</b> P. J. Šafárik University in Košice	
<b>Faculty:</b> Faculty of Arts	
<b>Course ID:</b> KPE/ PgVU/17	<b>Course name:</b> Pedagogy for University Teachers
<b>Course type, scope and the method:</b> <b>Course type:</b> Lecture <b>Recommended course-load (hours):</b> <b>Per week: Per study period:</b> 28s <b>Course method:</b> distance, present	
<b>Number of ECTS credits:</b> 5	
<b>Recommended semester/trimester of the course:</b> 1., 3., 5.	
<b>Course level:</b> III.	
<b>Prerequisites:</b>	
<b>Conditions for course completion:</b> 1. Development of a teaching diary—100% 2. Compulsory active participation and attendance in accordance with the Study Regulations.	
<b>Learning outcomes:</b> After completing the course, the student will acquire knowledge, skills, and competencies, i.e., will be able to: <b>Knowledge</b> Define and apply basic didactic principles, methods, forms, and tools in the teaching process of university-level professional subjects. Identify and specify educational procedures of a university teacher aimed at effective teaching management, pedagogical diagnostics, and assessment of learning outcomes. Recognize different approaches to pedagogical evaluation and their impact on improving the quality of the educational process at the university level. <b>Skills</b> Implement effective educational methods and techniques into the teaching of professional subjects, tailored to the needs of university students. Conduct pedagogical diagnostics, assess students' progress, and apply appropriate evaluation methods to improve learning outcomes. Analyze and reflect on one's own teaching process, identify areas for improvement, and enhance the teaching of professional subjects, including the rationalization of the time and content structure of teaching. Present specific proposals for improving the teaching process, including the use of new technologies and innovative pedagogical approaches. <b>Competencies</b> Confidently and effectively manage the teaching of university subjects, applying educational competencies that consider the specifics of higher education. Critically reflect on one's own pedagogical practice and the learning outcomes of students to improve teaching methods and achieve a higher quality of the educational process. Apply innovative solutions to streamline and optimize the teaching process, aiming to increase the engagement and success of university students.	
<b>Brief outline of the course:</b> The personality of a university teacher. Teaching styles. Student in university education. Student learning styles. Possibilities of adapting teaching styles and student learning styles. University teacher–student interaction and communication in the teaching process. Pedagogical competencies	

of a university teacher. Didactic analysis of the curriculum; teaching materials and textbooks. Forms of university teaching. Methods of university teaching. Verification methods and student assessment. Creation of a didactic test. Designing university teaching process. University teacher self-reflection.

## COURSE INFORMATION LETTER

<b>University:</b> P. J. Šafárik University in Košice	
<b>Faculty:</b> Faculty of Arts	
<b>Course ID:</b> KSP/ TSPd/11	<b>Course name:</b> Theories of Social Work
<b>Course type, scope and the method:</b> <b>Course type:</b> Lecture / Practice <b>Recommended course-load (hours):</b> <b>Per week:</b> 1 / 1 <b>Per study period:</b> 14 / 14 <b>Course method:</b> present	
<b>Number of ECTS credits:</b> 8	
<b>Recommended semester/trimester of the course:</b> 1., 2., 3., 4., 5., 6..	
<b>Course level:</b> III.	
<b>Prerequisites:</b>	
<b>Conditions for course completion:</b> Maximum 40 points during the semester: 10 points - active work at seminars, presenting basic concepts of individual theoretical concepts; 10 points - a seminar paper including a PowerPoint presentation in which he describes and interprets and classifies and applies knowledge about individual institutes of the analyzed theory; 20 points: written assessment in which the student identifies, remembers, describes and classifies individual theoretical starting points and institutes in the 14th week of the semester; Conditions for admission to the oral exam: obtaining at least 30 points; Final assessment: The sum of the interim assessment and the oral exam (0-60 points), in which the student can apply theoretical knowledge from individual theoretical concepts.	
<b>Learning outcomes:</b> <b>Knowledge</b> The doctoral student identifies and remembers the basic terms and theoretical starting points of individual theoretical concepts. He has knowledge of the origins of individual theories related to the field of study and their interdisciplinary connections. The doctoral student can describe individual starting points and the basis of theories, interpret them and briefly express them, summarize process relationships that exist in social work based on theories. Knows the basic characteristic and specific features of individual theories and theoretical models in social work. Can draw conclusions and name connections between individual theories, theoretical concepts from the perspective of social work. <b>Skills</b> The doctoral student is able to subsume social problems under a theoretical basis and independently assess individual theories that can be used in solving a social case. The doctoral student can describe, classify and classify the structure of individual theoretical starting points, define individual characteristics and relationships in the processes of theoretical analysis of a social problem. The doctoral student knows how to choose and use an adequate theory for solving individual social problems, depending on the client group. Can identify the importance of theories, theoretical concepts and perspectives in the process of assessing and solving the client's situation, especially setting the solution model. He knows how to use theoretical starting points in the practice of social work and the development of its knowledge. <b>Competences</b>	

The doctoral student is able to use knowledge from theories of social work in the analysis and solution of a specific problem in social work. The doctoral student can provide basic information services and consulting services in various areas of social work based on theoretical principles. He can professionally present his own opinions on theoretical problems in the field of social work. The doctoral student is able to perform professional activities in accordance with theoretical starting points and limits. He has professional communication skills and knows how to use professional terms defined by theories and theoretical concepts. A doctoral student can work in professional teams and use interdisciplinary and interprofessional cooperation based on theoretical starting points and perspectives.

**Brief outline of the course:**

Models and perspectives in social work. Paradigms of social work. Eclectic theories in social work. Ecological perspectives. Antipressive approach. System theories - system approach. Systemic approach and its techniques. Solution-oriented and client-oriented approach in social work. Organizational theories in social work. Theories of behavior in social work. Socio - psychological and communication theories in social work. Strategic concept in social work. Existential analysis. Humanistic theories in social work (concept of I, quality of life). Transaction analysis. Behavioral theory of social work and cognitive - behavioral therapy. Christian theories in social work. Their application for solving social problems, sociopathological phenomena and in specific work with an individual, group or community.
