<b>Learning outcomes:</b> Students can apply rules of construction of conventional sequence schemes to distinguish and create speeches. They can also group/re-group semantic packages to achieve integration of further utterances in order to establish the required interaction, they understand narration, description, argumentation, explication, illustration,... as psycho-cognitive schemes (socio-discourse macro-actions, types of texts) which are the most common forms of verbal action. They have mastered the procedures to overcome three types of difficulties the interpreters and translators encounter the most in transactions ensuring logical and formal coherence: the difficulty to select corresponding linguistic devices (expressions); the difficulty to harmonise the conceptual and linguistic aspects; the difficulty to find balance between their own perception and its linguistic expression and recipient's needs.	
<b>Brief outline of the course:</b> Seminar is focused on typology of errors in underlying processes in translation and interpretation: a) anaphoric expressions without a clearly identifiable reference element; b) synonyms, hyperonyms and hyponyms are not lexical elements of anaphoric relation; c) anaphora does not substitute a main term, but it refers to another term associated with mental image; d) high redundancy; e) replacement of contextual reference by deictic one; f) reference ambiguity resulting from co-reference or parallel function. Seminar also deals with essentials of semantic analysis and combinatorics, theme and rheme as pragmatic functions and implicit meaning. It involves discourse competence, function competence, and competence of text structure as well as receptive strategies and production strategies.

<b>Conditions for course completion:</b> Assessment of progress made by a student during semester and assessment of his/her final interpreting performance. Grading scale: A 100-94 %, B 93-89 %, C 88-83 %, D 82-77 %, E 76-70 %, FX 69 % and less	
<b>Learning outcomes:</b> The aim of the course Simultaneous Interpreting is acquiring and development of interpreting habits, skills, strategies and techniques (interpreting competences) by training of routine - automated procedures ("epistemic habits") that can be learned on the basis of imitative and cognitive learning strategies and that stimulate occurrence of associative, context-depending links between expressions in source and target language.	
<b>Brief outline of the course:</b> Seminars are focused on intensive training of anticipation, inference and segmentation strategies. Cloze deletion tasks will be used to improve anticipation, consisting in interpreting of texts with omitted words or sections of sentences. Exercises focused on interference will be based on interpreting where short sequences were intentionally omitted. Such exercises improve competence to deduce logically and add the part which a student (interpreter) missed. By training of segmentation, students will learn how to process identified sense perceptions, irrespective of a speaker's rhetoric competence to formulate a transparent and clear target text. Students' performances will be subsequently analysed, with the emphasis on identification and removal of the three most frequent failures of interpreting – omission, contradiction, and telescoping.

## COURSE INFORMATION LETTER

<b>University:</b> P. J. Šafárik University in Košice	
<b>Faculty:</b> Faculty of Arts	
<b>Course ID:</b> KAaA/ USCU/09	<b>Course name:</b> Contemporary USA
<b>Course type, scope and the method:</b> <b>Course type:</b> Practice <b>Recommended course-load (hours):</b> <b>Per week: 2 Per study period: 28</b> <b>Course method:</b> present	
<b>Number of ECTS credits:</b> 3	
<b>Recommended semester/trimester of the course:</b> 1.	
<b>Course level:</b> II.	
<b>Prerequisites:</b>	
<b>Conditions for course completion:</b> Student evaluation is based on three criteria: TWO CREDIT TESTS 70%; and ATTENDANCE AND ACTIVE PARTICIPATION 30%. To receive credits for this course, students must pass the two credit tests; continuously and timely submit their reports and attend each class according to the schedule. Attendance is followed during the online sessions too. TESTS constitute 70% of the final mark: Ordinarily, student coursework is evaluated by letter grades, which are assigned a value based on a 100-point scale gained from two credit tests plus points for continuous preparation and active participation. The final mark is assigned according to the following scale: A 100-93 B 92-86 C 85-78 D 77-72 E 71-65 FX 64-0 Students who are unable to take a credit test at the scheduled time due to a documented condition should contact the lecturer as soon as the need is apparent to discuss make-up examination accommodations and procedures. Students absent from a scheduled credit test will be examined by the lecturer separately in an ORAL EXAM to collect information about their level of preparedness. Oral exams will be realized during the lecturer's consultation hours as soon as possible after the missed credit test. The content of the oral examination will be equivalent with the content of the missed credit test but may last longer than a written test and can include deeper analysis of certain problem areas of the course. ATTENDANCE AND ACTIVE PARTICIPATION constitute 30% (maximum 30 points) of the final mark: All students must attend all classes regardless they are organized face-to-face or online. Students must join the class sessions on time. Should anyone miss the first ten minutes of a class, will be marked as absent from the class. Points for active participation will be assigned only when the student actively contributes to the learning process during the sessions by joining discussions!	

Volunteer work in extracurricular activities that are organized by the Department of the British and American Studies which clearly contribute to the students' professional development such as: lectures and workshops, career week activities, organization of open-door days, language competitions, conferences, Olympiads, and other similar activities are fully supported! Should these activities be organized during the regular session times, volunteers will be assigned the points for active participation as if they had participated in the regular class session.

#### **ABSENCE DUE TO ILLNESS**

A student absent from a class must file a valid doctor's certificate by emailing it in a PDF format to the lecturer as soon as possible. Due reports for the missed class must be submitted according to the syllabus of the course and no later than the following class attended by the student.

In an emergency, if the student is unable to contact the lecturer and mail the valid doctor's certificate or is being treated elsewhere, the lecturer must be informed by sending an email to the following email address: [julius.rozenfeld@upjs.sk](mailto:julius.rozenfeld@upjs.sk) as soon as possible. In both cases, the student must also file a letter from a physician certifying the date and nature of the illness.

#### **ABSENCE FOR OTHER REASONS**

Students who must be absent for reasons other than illness, such as a death in the family or a reason of similar gravity, must contact the lecturer as soon as possible and submit relevant documents that certify the seriousness of the case.

There may be other activities which can validate missing a class or several classes, for example participation in high-quality international competitions, scientific research, conferences, or other relevant activities, which clearly contribute to the professional development of the student but final decision about the validity of the presented excuse fully falls in the lecturer's competency. Regular full-time or part-time employment is not an acceptable excuse for a missed class.

#### **COVID-19 regulations:**

Changing pandemic situation requires continuous adaptation. Online sessions organized via Microsoft Teams are the preferred alternative to in-person sessions if necessary. Attendance will be duly followed on online meetings too. Tests – if required for the completion of course – are also planned flexibly. Normally, the first credit test takes place during the 6th week of the term with a second credit test on the 12th week, but changes may apply. If necessary, these test dates can be changed according to the pandemic situation or replaced by online tests the form and content of which are comparable with a normal paper-based test. Students are required to follow the department's noticeboard and inform themselves continuously about the possible changes!

#### **Learning outcomes:**

The course provides an overview of the United States. Students will understand the current dynamics of American culture by studying a wide range of topics from geographical diversity to political and social issues. Part of the course focuses on US citizenship, visa questions, job and travel opportunities for college students. In cooperation with American diplomatic bodies and cultural institutions, students will have the opportunity to understand their functioning and their contribution to the Slovak-American economic, political and cultural cooperation. Students are guided to critical thinking and are required to use analytical methods and techniques in their work. They are able to actively implement the acquired knowledge in the field of cultural and economic diplomacy as interpreters and translators, or as employees of various diplomatic bodies.

<b>Course ID:</b> KAaA/ IPEUM/21	<b>Course name:</b> Institutions and Policies of the EU
<b>Course type, scope and the method:</b> <b>Course type:</b> Lecture / Practice <b>Recommended course-load (hours):</b> <b>Per week:</b> 1 / 1 <b>Per study period:</b> 14 / 14 <b>Course method:</b> present	
<b>Number of ECTS credits:</b> 3	
<b>Recommended semester/trimester of the course:</b> 1.	
<b>Course level:</b> II.	
<b>Prerequisites:</b>	
<b>Conditions for course completion:</b> Student evaluation is based on three criteria: TWO CREDIT TESTS 70%; CONTINUOUS PREPARATION 10%, and ATTENDANCE AND ACTIVE PARTICIPATION 20%. To receive credits for this course, students must pass the two credit tests; continuously and timely submit their reports and attend each class according to the schedule. Attendance is followed during the online sessions too. TESTS constitute 70% of the final mark: Ordinarily, student coursework is evaluated by letter grades, which are assigned a value based on a 100-point scale gained from two credit tests plus points for continuous preparation and active participation. The final mark is assigned according to the following scale: A 100-93 B 92-86 C 85-78 D 77-72 E 71-65 FX 64-0 Students who are unable to take a credit test at the scheduled time due to a documented condition should contact the lecturer as soon as the need is apparent to discuss make-up examination accommodations and procedures. Students absent from a scheduled credit test will be examined by the lecturer separately in an ORAL EXAM to collect information about their level of preparedness. Oral exams will be realized during the lecturer's consultation hours as soon as possible after the missed credit test. The content of the oral examination will be equivalent with the content of the missed credit test but may last longer than a written test and can include deeper analysis of certain problem areas of the course. CONTINUOUS PREPARATION constitutes 10% of the final mark (maximum 10 points): Students are expected to prepare reports for each class by reading and processing the study materials and the required literature. Formal requirements for the home assignments: Minimum 2 but maximum 3 pages in Microsoft Word editor: letter type Times New Roman; letter size 12, spacing 1.5, 34 lines with 2865 characters per page with spaces. The report's header must contain the student's name and surname, study group, number of the given week according to the	

syllabus of the course and the title of the topic for the week. The reports must be submitted in Printable Document Format (PDF).

Content requirements for the assignment:

Students must present the content of the reading assignment synthesized in a clear and structured way: highlighting key information and data as well as presenting logical connections between them. The submitted report must represent the student's thorough understanding of the content and the problem area discussed in the reading assignment.

**WARNING:** Reports must be original work of the author! Any violation of copyright or breach of anti-plagiarism rules and regulations of the university will inevitably lead to disciplinary procedures! Repeated and systematic plagiarism will lead to the loss of credits assigned for completion the course!

Deadline and the format of the report:

Students must mail their home assignments to the following email address: rozenfeld.julius2@atk.sk by Saturday 24:00 each week. The reports must be mailed in PDF format. No other formats are accepted! No late submissions will be accepted unless separately negotiated with the supervisor of the course!

**ATTENDANCE AND ACTIVE PARTICIPATION** constitute 20% (maximum 20 points) of the final mark:

All students must attend all classes regardless they are organized face-to-face or online. Students must join the class sessions on time. Should anyone miss the first ten minutes of a class, will be marked as absent from the class. Points for active participation will be assigned only when the student actively contributes to the learning process during the sessions by joining discussions!

Volunteer work in extracurricular activities that are organized by the Department of the British and American Studies which clearly contribute to the students' professional development such as: lectures and workshops, career week activities, organization of open-door days, language competitions, conferences, Olympiads, and other similar activities are fully supported! Should these activities be organized during the regular session times, volunteers will be assigned the points for active participation as if they had participated in the regular class session.

#### **ABSENCE DUE TO ILLNESS**

A student absent from a class must file a valid doctor's certificate by emailing it in a PDF format to the lecturer as soon as possible. Due reports for the missed class must be submitted according to the syllabus of the course and no later than the following class attended by the student.

In an emergency, if the student is unable to contact the lecturer and mail the valid doctor's certificate or is being treated elsewhere, the lecturer must be informed by sending an email to the following email address: julius.rozenfeld@upjs.sk as soon as possible. In both cases, the student must also file a letter from a physician certifying the date and nature of the illness.

#### **ABSENCE FOR OTHER REASONS**

Students who must be absent for reasons other than illness, such as a death in the family or a reason of similar gravity, must contact the lecturer as soon as possible and submit relevant documents that certify the seriousness of the case.

There may be other activities which can validate missing a class or several classes, for example participation in high-quality international competitions, scientific research, conferences, or other relevant activities, which clearly contribute to the professional development of the student but final decision about the validity of the presented excuse fully falls in the lecturer's competency. Regular full-time or part-time employment is not an acceptable excuse for a missed class.

#### **COVID-19 regulations:**

Changing pandemic situation requires continuous adaptation. Online sessions organized via Microsoft Teams are the preferred alternative to in-person sessions if necessary. Attendance will be duly followed on online meetings too. Tests – if required for the completion of course – are

also planned flexibly. Normally, the first credit test takes place during the 6th week of the term with a second credit test on the 12th week, but changes may apply. If necessary, these test dates can be changed according to the pandemic situation or replaced by online tests the form and content of which are comparable with a normal paper-based test. Students are required to follow the department's noticeboard and inform themselves continuously about the possible changes!

**Learning outcomes:**

The aim of this course is to help students understand the characteristics of European policies, how these policies are formulated and what is their direct and indirect impact on the functioning of the European Union. The course explains the ways and forms of cooperation between the EU institutions and the Member States, analyzes the decision-making processes of the various EU institutions and the influence of various actors on policy-making. By completing the course the student will be able to integrate and actively use the acquired knowledge in the work of a translator and interpreter for the EU. Another goal is to help students understand the basics of policy analysis and apply this knowledge for scientific purposes. <b>Prerequisites:</b>	
<b>Conditions for course completion:</b> To successfully complete the course, students are encouraged to perform well on two levels of assessment: continuous and final. Continuous assessment requires active participation and performance in each lesson, including participation in discussions based on reading required texts and watching assigned films. However, students are expected to not only engage with individual texts/films but also to evaluate them, evaluate authors' messages, recognize the potential implications of the text within historical, cultural and social contexts, identify different perspectives, and make inferences about authors' messages in the form of a short written assignments prepared on a weekly basis. Students are also highly encouraged to challenge arguments presented in the texts/films. These assignments will be rewarded with 30% of the overall evaluation. Unprepared students who have not read/watched the assigned materials prior to each class will be marked as absent and their performance evaluated with an Fx. To complete the course, students must also successfully pass the essay-question test at the end of the course. The test comprises 70% of the final grade. <b>Attendance:</b> Students are expected to attend each class according to the schedule, which applies to online classes too. No transfers among the groups are allowed. Should students miss three or more classes, they will not receive credits for the course no matter what their overall results are. The course is currently conducted in person; however, the format of individual classes may be subject to changes. <b>Assignment Assessment Criteria :</b> Students are advised to consider the following evaluation criteria to assess their preparation for assignments. Students will be evaluated based on their ability to communicate and organize information from primary and secondary sources according to the following requirements: <b>A-B</b> The student can effectively communicate and synthesize information from primary sources, explaining their relevance within the historical context with clarity and depth <b>C-D:</b> The student can communicate and organize information from the source but has not yet fully synthesized the acquired information with the historical context.	

E:

Fx:

The student cannot effectively communicate information from sources or communicates incorrect information.

**FINAL EVALUATION SCALE :**

E 65-71%

FX 64 and less

**Learning outcomes:**

The course is designed to instruct students in the art of cinematic discourse and provide them with a set of information to help them develop and/or improve essential analytical skills in interpreting contemporary American cinema. It also invites students to participate more judiciously in the analysis of American cinema with the intention to enable them to question their role as passive spectators and increase their ability to watch films actively and critically.

Course content:

This course will examine significant issues in film theory and contemporary approaches to understanding the film. Since the 1970s, scholars have developed a variety of critical methods for studying media texts. This course focuses on the most viable ones to provide students with the tools necessary to interpret films as socio-cultural and ideological productions.

<b>Learning outcomes:</b> The aim of the course Simultaneous Interpreting is acquiring and development of interpreting habits, skills, strategies and techniques (interpreting competences) by training of routine - automated procedures ("epistemic habits") that can be learned on the basis of imitative and cognitive learning strategies and that stimulate occurrence of associative, context-depending links between expressions in source and target language.	
<b>Brief outline of the course:</b> Seminars are focused on intensive training of anticipation, inference and segmentation strategies. Cloze deletion tasks will be used to improve anticipation, consisting in interpreting of texts with omitted words or sections of sentences. Exercises focused on interference will be based on interpreting where short sequences were intentionally omitted. Such exercises improve competence to deduce logically and add the part which a student (interpreter) missed. By training of segmentation, students will learn how to process identified sense perceptions, irrespective of a speaker's rhetoric competence to formulate a transparent and clear target text. Students' performances will be subsequently analysed, with the emphasis on identification and removal of the three most frequent failures of interpreting – omission, contradiction, and telescoping.

<b>Conditions for course completion:</b> Two credit tests are intended for weeks 7 and 13. The date of the test may change, and the students will be notified about the change sufficiently in advance. The tests will verify students' knowledge of materials covered during seminars and assigned for home preparation. In order to pass the subject, the sum of the scores from the two tests must be at least 65%. A student cannot pass or fail a single test, what matters is the final score after they have taken both. There will not be any re-take tests. Regular seminar attendance is expected; more than two absences will adversely affect getting credit and final grade, no matter what student's overall test results are. Students are required to do their best with respect to active participation in seminar sessions. They are expected to bring their own copies of the required materials and complete the assigned tasks and exercises. Should they fail to bring their own copy or a completed home assignment for a particular seminar, they will be marked as absent. The grading standards establish the following criteria for evaluation: 100%-92% A 91%-87% B 86%-82% C 81%-77% D 76%-65% E 64% and less FX
