COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Public Administration	
Course ID: Dek. FVS/ČrVZdWS/24	Course name: Article in Reviewed Scientific Proceedings Domestic WoS, Scopus
Course type, scope and the method: Course type: Recommended course-load (hours): Per week: Per study period: Course method: present	
Number of ECTS credits: 12	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: The student receives credits for publishing a scientific paper that has been published in a reviewed proceedings registered in the WoS or Scopus database published in the Slovak Republic.	
Learning outcomes: By publishing a scientific paper, the PhD student demonstrates a high level of competence to identify, evaluate, apply sound scientific methods or research methodology in the field of public administration. He/she demonstrates the ability to reflect on a scientific problem by using the latest approaches and applying them critically. He/she demonstrates competence to use existing knowledge in an innovative way as well as to generate new scientific knowledge that can be published according to the established qualitative and ethical standards of the field of study.	
Brief outline of the course:

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Public Administration	
Course ID: Dek. FVS/ACK/24	Course name: Completion of a Certified Course Offered by Another Part of UPJŠ
Course type, scope and the method: Course type: Recommended course-load (hours): Per week: Per study period: Course method: present	
Number of ECTS credits: 4	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: Completion of the entire interdisciplinary course selected by the student is a prerequisite for getting the credits. The student will receive credits if the entire course, including its assessment, is successfully completed. The student chooses one or more certified interdisciplinary courses, distinct from his/her field of study and according to what he/she considers important for his/her future employment.	
Learning outcomes: Completion of certified interdisciplinary courses increases the graduate's opportunities for employment and their attractiveness among employers. By completing the prescribed courses from the certified interdisciplinary course (in addition to the CIK for obtaining an international certificate), the student receives the UPJŠ Certificate, and in the framework of IB12 also the SAP academy CERTIFICATE.	
Brief outline of the course:

Course type, scope and the method: Course type: Recommended course-load (hours): Per week: Per study period: Course method: present	
Number of ECTS credits: 10	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: The student receives credits for completing a foreign research or study stay of at least 3 months after his/her return and after submitting the necessary documents.	
Learning outcomes: By completing a foreign research or study stay, a PhD student demonstrates the ability to reflect on research problems and work critically with sources at an expert level and in an interdisciplinary context. The student is able to generate new knowledge. He/she is able to communicate actively at expert level in more than one world language. He/she works independently and in a group to push the boundaries of knowledge and transfer it to other areas of research, to the practice and to the wider public. He/she can competently argue and defend views and opinions.

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Public Administration	
Course ID: Dek. FVS/KŠVOČ/24	Course name: Consultant of Student Scientific Professional Activity (SSPA)
Course type, scope and the method: Course type: Recommended course-load (hours): Per week: Per study period: Course method: present	
Number of ECTS credits: 4	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: The PhD student will receive credits for supervising a student in writing the SSPA thesis. The student will receive credits only if the thesis is entered in the faculty round of the SSPA. The PhD student regularly consults with the student on the process of writing the thesis, guides him/her in the content of its individual parts, provides advice on obtaining sources of relevant literature.	
Learning outcomes: By conducting the work of the SSPA, the PhD student acquires knowledge about the content of the work of the SSPA. He/she enriches his/her knowledge about the topic of the SSPA thesis. He/she gains practical experience in supervising a student in writing a thesis, which he/she can use in supervising a bachelor thesis.

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Public Administration	
Course ID: KSS/ STMEZ/24	Course name: Current Trends in Human Resource Management
Course type, scope and the method: Course type: Lecture Recommended course-load (hours): Per week: 12 Per study period: 168 Course method: present	
Number of ECTS credits: 5	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: Participation in classes in accordance with the study regulations and the teacher's instructions. Activity in the seminar. TASK. During the semester, the student will independently prepare, present and defend a project (article) on an assigned topic corresponding to trends in human resource management. The structure of the article: a) theoretical definition of the issue; b) comparative analysis of the research findings published in research and professional studies; c) interpretation of the findings. Maximum score: 30 points. The course examination is oral. The DETAILED CONDITIONS are updated annually within the repository for digital support materials (LMS UPJŠ). A minimum of 91 points is required for a grade of A, a minimum of 81 points for a grade of B, a minimum of 71 points for a grade of C, a minimum of 61 points for a grade of D, and a minimum of 51 points for a grade of E. The credits will not be awarded to a student who earns less than 15 points on a paper.	
Learning outcomes: After completing the course, the student knows the terminological apparatus and has the theoretical knowledge of the scientific discipline "human resources management" (HRM). He/she is oriented in the current development trends of HRM, and understands the contribution of HRM to the success of an organisation, he/she can diagnose, measure and interpret it. The student understands the value of people to the organization and knows the issues of teams and is able to identify group influence on individuals. He/she is proficient in the principles of effective leadership, work motivation management, reward management, performance and performance management, and knowledge management. He/she knows the basics of assertive communication, is able to remove communication barriers and provide feedback. He/she can apply theoretical knowledge to the practice of organisations with an emphasis on public administration organisations, is competent to use theoretical knowledge in practice.	
Brief outline of the course:	

1. Human resource management as an integral part of the management of an organisation. Process approach to human resource management (HRM) 2. Contribution of HRM to organizational success and its measurement. 3. Information technology and artificial intelligence in HRM 4. The workplace and implications for effectiveness. 5. Reward management. 6. Leadership and characteristics of a leader. 7. Teams, teamwork and group influence. 8. Job satisfaction, motivation, loyalty, commitment and engagement. 9. Knowledge management. Staff learning and development. 10. Performance rate and performance management. 11. Communication (assertive communication, feedback, importance of listening). 12. Value management – ethical aspects in human resource management. 13. International human resource management.

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Public Administration	
Course ID: KSS/ MaMVP/24	Course name: Methodology and Methods of the Scientific Work
Course type, scope and the method: Course type: Lecture Recommended course-load (hours): Per week: 12 Per study period: 168 Course method: present	
Number of ECTS credits: 7	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: Credits are awarded for a minimum of 70 points, with a maximum of 60 points during the semester and 40 points on the exam. During the semester, students may earn points for completing individual and group work and for completing a project. Detailed conditions are updated annually in the LMS UPJŠ e-learning portal. A student will not meet the conditions for registration for the examination if he/she does not participate in one of the control stages or obtains less than 30 points during the semester.	
Learning outcomes: The course is aimed at introducing PhD students to basic research concepts and their application in conducting research in public administration and preparing students for further study of specific methods. After completing the course, the student is able to formulate a scientific problem, select and use an appropriate method for solving the problem and apply it to a specific assignment related to the topic of his or her dissertation. The student is familiar with the most commonly used methods in the social sciences, their strengths and weaknesses, the ethics of social research and the way of presenting the results of his/her scientific research. Students will gain knowledge and strategies for planning and conducting research and prepare a research project on a selected topic.	
Brief outline of the course: 1. Research in public administration. Research problem - research objective, research questions. Ethics and research. 2. Measurement of variables, validity and reliability. Sampling. Research design. 3. Questionnaires in social research. Interviews and focus groups. Experiments in public administration. 4. Desk research - analysis of secondary data and official statistics. Evaluation research. Reporting results.

Understands the forms and methods of public administration, problem areas and possible solutions. The student knows the processes of public administration, current legislation concerning public administration. He/she knows the principles of good public administration and the forms of its activities. He/she has knowledge of the role and organisation of the administrative justice system. The graduate acquires the latest knowledge of local and regional self-government. He/she has a broad knowledge of economic tools used in public administration. He/she possesses the latest knowledge on efficiency of public administration, its criteria and instruments, not only at national level but also at territorial level/ local government. The graduate is familiar with public administration in selected EU countries, in particular V4 countries, pointing out the common and different features of public administration as a form of public authority.</p> <p>The graduate is able to apply the acquired knowledge to selected current problems of public policy and public administration in a democratic society, including methodological issues of their research and application. The graduate is able to acquire new knowledge and information in an active way, critically analyze, review and use them in theory and practical applications for further development of public administration.</p>	

Brief outline of the course:

1. The position of public administration in a democratic state and different approaches to it.
2. Public administration as a form of public authority
3. Forms of public administration
4. Methods of public administration
5. Principles of good public administration
6. Principles of the organisation and operation of public administration
7. Theory of local government
8. Current problems of regional self-government
9. The role and organisation of administrative justice in the Slovak Republic
10. Attributes, criteria and principles of public administration in a democratic state
11. Fiscal decentralization
12. The specifics of financial management in public administration
13. Public administration budget and budgetary policy.
14. Performance management systems in public administration
15. Efficiency of public administration, criteria, instruments.
16. Fiscal imbalances, causes, manifestations and consequences.

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Public Administration	
Course ID: KVPaTVS/VPDS/24	Course name: Public Policy in a Democratic Society
Course type, scope and the method: Course type: Lecture Recommended course-load (hours): Per week: 30 Per study period: 420 Course method: present	
Number of ECTS credits: 10	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: Face-to-face meetings participation, seminar work - assignment, final exam in the form of a colloquium. The face-to-face part of meetings is 30% and the separate part - individual work on assignment (lecturer + doctoral student + dissertation consultant) 70%. Completion of the course is a conditional processing of the presentation in PWP from the point of view of political science, as well as from the point of view of jurisprudence on the agreed topic. (synthesis of the topic of the dissertation with the course attended). The formal presentation must meet the requirements according to the dean's instruction 4/2021 on the basic requirements of the final theses (more details and information on content and formal processing will be available at the first meeting). The doctoral student is obliged to present the chosen topic to both teachers 1. from the point of view of political science and 2. from the point of view of jurisprudence. Subsequently, it is the duty of the doctoral student to process the given topic under the control of his dissertation consultant, diz. work in the form of a contribution in the faculty journal Public Administration and Society (according to the formal requirements of this journal) so that it is ready for submission to the peer review process. (Alternatively, after consultation with the lecturers as well as with your diss. consultant, it is possible to agree on the processing of the contribution to another scientific, professional magazine or conference proceedings).	
Learning outcomes: The student will have in-depth theoretical knowledge about public policy in a democratic society and will be able to apply the acquired knowledge to selected current public policy problems and synthesize them after completing the course.	
Brief outline of the course: <ol style="list-style-type: none"> 1. Democracy, its origin, development and metamorphoses in Western civilization and contemporary modern society. 2. Public policy and politics, relationship, subject, methods, actors, tools, characteristics, status among sciences. 3. Democracy, public policy, values of Western civilization, globalization and current trends and phenomena. 4. Social policy as one of the integral parts of public policy history - present - perspectives. 5. Social policy in the globalized world and the solution of social events in Western civilization. 	

6. Social events and the social security system as an expression of the state's social policy.
7. Legislative instruments of family policy.
