COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Medicine	
Course ID: Dek. LF UPJŠ/APV-DK +Z/22	Course name: Active presentation of results at a national conference with international participation
Course type, scope and the method: Course type: Recommended course-load (hours): Per week: Per study period: Course method: present	
Number of ECTS credits: 5	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: Active presentation of results at a national conference with international participation. The doctoral student states the activity in the doctoral annual report and these activities are relevantly documented (e.g. publication, program).	
Learning outcomes: By actively participating in a scientific conference, the doctoral student demonstrates a high level of knowledge and ability to identify, evaluate, correctly apply scientific knowledge and research methods. Demonstrates competence to use existing knowledge and generate new original scientific knowledge that he can critically analyse and communicate to a wider audience by adequate means (e.g. lecture, poster).	
Brief outline of the course:

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice					
Faculty: Faculty of Medicine					
Course ID: Dek. LF UPJŠ/ODZ/05		Course name: Defence of Doctoral Thesis			
Course type, scope and the method: Course type: Recommended course-load (hours): Per week: Per study period: Course method: present					
Number of ECTS credits: 20					
Recommended semester/trimester of the course:					
Course level: III.					
Prerequisites:					
Conditions for course completion: All information about the doctoral study is specified on the faculty's website in the Doctoral Study section, including the conditions of completion, which are detailed in the State Examinations section. Students will find here all the necessary information, forms and documents, including information on the formal side of the dissertation, which are in accordance with Directive No. 1/2011 on the basic requirements of final theses and the PhD Study Regulations at UPJŠ in Košice. The submitted work must be in accordance with the Rector's Decision No. 5/2021, issuing the principles of good practice of scientific publication at UPJŠ in Košice and its parts, Rector's Decision No. 21/2021, on issuing rules for the assessment of plagiarism at UPJŠ in Košice and its parts, Rector's Decision No. 2/2022 which issues the principles of good research practice at UPJŠ in Košice and its parts.					
Learning outcomes: The dissertation has the character of a scientific work and the student demonstrates by this work extensive mastery of the theory and professional terminology from the field of study/study program, acquisition of knowledge, skills and competencies in accordance with the declared profile of the graduate, as well as the ability to apply them in an original way. The student demonstrates the ability of independent scientific work in terms of content, formal and ethical, and the ability to present and critically analyses obtained results.

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Medicine	
Course ID: 2. PK/ PaPM/25	Course name: Psychoneurobiology and psychosomatic medicine
Course type, scope and the method: Course type: Lecture / Seminar Recommended course-load (hours): Per week: 1 / 2 Per study period: 14 / 28 Course method: present	
Number of ECTS credits: 10	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: Students will receive an individual or group assignment in the field of psychoneurobiology and psychosomatic medicine research, which requires a systematic study of current scientific publications (especially impact journals), a critical assessment of the current state of knowledge and identification of research gaps. The work includes: <ul style="list-style-type: none"> • active participation in seminars and professional discussions, • ongoing presentation of partial outputs, • preparation of a final seminar paper in the scope corresponding to the PhD study, • defense of the work in the form of a professional presentation with discussion. Emphasis is placed on an interdisciplinary approach, the connection of neurobiological mechanisms with psychological and somatic processes, as well as on the application of knowledge in clinical practice and research. Interim assessment (50%): study and preparation of materials Final assessment (50%): processing of the seminar paper	
Learning outcomes: The ambition of the seminars is to provide doctoral students with deeper knowledge of current trends in research in psychoneurobiology and psychosomatic medicine, with a focus on the connection between the nervous, endocrine and immune systems in the context of health and disease. Students will acquire the ability to critically analyze and synthesize scientific knowledge in the field of relationships between psychological processes and physical health, identify research gaps and formulate relevant research questions. They will develop the competencies necessary for: <ul style="list-style-type: none"> • application of interdisciplinary approaches in the study of psychosomatic phenomena, • interpretation of empirical data in the context of biological and psychological mechanisms, • design and evaluation of scientifically based interventions in the field of health promotion and disease treatment. Emphasis is placed on connecting theoretical knowledge with research and clinical practice, as well as on the development of independent scientific thinking.	

Brief outline of the course:

1. Psychoneurobiological mechanisms of organism regulation
2. Neuroendocrine and immune processes in the context of health and disease
3. Stress and its biological correlates (HPA axis, autonomic nervous system)
4. Psychoneuroimmunology and its importance for the origin and course of diseases
5. Psychosomatic relationships between the psyche and physical diseases
6. The influence of emotions and cognitive processes on physical health
7. Psychological and behavioral interventions in psychosomatic medicine

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Medicine	
Course ID: UPZMV/MVaS/22	Course name: Research Methodology and Statistics
Course type, scope and the method: Course type: Lecture / Seminar Recommended course-load (hours): Per week: 1 / 2 Per study period: 14 / 28 Course method: present	
Number of ECTS credits: 10	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: 1. Online test after each lecture 2. Problem learning after each block of lectures	
Learning outcomes: Introduction to basic methods of epidemiological and clinical studies and mastering their application in biomedical research. Gaining theoretical knowledge in biomedical statistics and improving their practical use.	
Brief outline of the course: First block of lectures / problem learning PU1: research protocol 1. Guide to the course 2. Research process 3. Measurement of impact 4. Study design 5. Validity of the study 6. Questionnaire methods Second block of lectures / problem learning PU2: working with statistical software 7. Random variable 8. Hypothesis, testing 9. Introduction to work with statistical software 10. Univariate statistical methods I 11. Univariate statistical methods II Third block of lectures / problem learning PU3: statistical data analysis 12. Linear regression 13. Logistic regression 14. Mutual influences of variables, interaction 16. Randomized controlled trials - implementation 17. Randomized controlled trials - analyzes 18. Sensitivity and specificity
