COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Medicine	
Course ID: Dek. LF UPJŠ/APV-DK +Z/22	Course name: Active presentation of results at a national conference with international participation
Course type, scope and the method: Course type: Recommended course-load (hours): Per week: Per study period: Course method: present	
Number of ECTS credits: 5	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: Active presentation of results at a national conference with international participation. The doctoral student states the activity in the doctoral annual report and these activities are relevantly documented (e.g. publication, program).	
Learning outcomes: By actively participating in a scientific conference, the doctoral student demonstrates a high level of knowledge and ability to identify, evaluate, correctly apply scientific knowledge and research methods. Demonstrates competence to use existing knowledge and generate new original scientific knowledge that he can critically analyse and communicate to a wider audience by adequate means (e.g. lecture, poster).	
Brief outline of the course:

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Medicine	
Course ID: UO/ POVKO/25	Course name: Advanced nursing in selected clinical specialties
Course type, scope and the method: Course type: Lecture / Practice / Controlled study hour Recommended course-load (hours): Per week: 1 / 1 / 5 Per study period: 14 / 14 / 70 Course method: present	
Number of ECTS credits: 5	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites: UO/OVD/25	
Conditions for course completion: Seminar paper related to current research issues in advanced practice nursing in a selected clinical area. Exam.	
Learning outcomes: Development of competencies in clinical theory and advanced nursing practice. Application of advanced nursing practice competencies and evidence-based nursing (EBN) to clinical practice to improve the quality of nursing care provided.	
Brief outline of the course: Advanced practice in nursing: definition, historical context, global perspectives and opportunities for international collaboration in advanced practice in nursing. Advanced nursing skills and competencies in selected disciplines in clinical practice will focus on the development of skills in personal health assessment, clinical decision making, health promotion and disease prevention, diagnostic test indication and interpretation, treatment and advanced nursing care in selected applied nursing disciplines (advanced nursing practice in adult care (in internal medicine nursing, surgery, etc.), children and adolescents, gerontology, mental health and psychiatry, etc.). Emphasis will be placed on the area of advanced nursing practice related to the doctoral dissertation topic	
Recommended literature: Professional and scientific publications published in Slovakia and abroad, current international clinical recommendations and guidelines related to advanced nursing practice according to the chosen clinical field of nursing. EBP books, journals, scientific databases (Cinahl, PubMed, Cochrane, Embase, Web of Knowledge...) and EBP internet databases (Google scholar, SUMSearch, UpToDate).

Faculty: Faculty of Medicine	
Course ID: UO/ROOP/25	Course name: Management and organisation of nursing practice
Course type, scope and the method: Course type: Lecture / Practice / Controlled study hour Recommended course-load (hours): Per week: 1 / 1 / 5 Per study period: 14 / 14 / 70 Course method: present	
Number of ECTS credits: 5	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: Seminar paper focused on a selected topic in nursing management in the context of the doctoral student's research task. Exam.	
Learning outcomes: Development of competencies in theoretical knowledge and practical skills with a focus on leadership and management of nursing practice. Development of critical thinking, ethical decision-making and innovative problem-solving skills essential for effective leadership in nursing. Enhancing the ability to advocate for change in health care organizations, influence policy, and contribute to the advancement of nursing science.	
Brief outline of the course: Managerial functions. Management and leadership. Leadership theories, types of leadership. Theoretical and practical approaches to ethical leadership in the context of successfully achieving change and innovation in organisations. Organizing. Planning. Human resource management, nurse workforce and its determinants. Quality management, quality of nursing care and its indicators, patient safety, nursing backlog. Information technology in health care. Emphasis will be placed on the area of organization and management of nursing practice related to the doctoral dissertation topic.	
Recommended literature: Professional and scientific publications published in Slovakia and abroad related to management, organisation, and leadership. EBP books, journals, scientific databases (Cinahl, PubMed, Cochrane, Embase, Web of Knowledge...) and EBP internet databases (Google scholar, SUMSearch, UpToDate).

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Medicine	
Course ID: UO/ SMOP/25	Course name: Simulation methods in nursing practice
Course type, scope and the method: Course type: Lecture / Practice / Controlled study hour Recommended course-load (hours): Per week: 1 / 1 / 5 Per study period: 14 / 14 / 70 Course method: present	
Number of ECTS credits: 5	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: Preparation of a simulation on a selected clinical topic for students of the first level of higher education in the field of nursing (completion of the course). Exam.	
Learning outcomes: Development of theoretical knowledge and skills in simulation in education and the ability to apply simulation as an educational method in the teaching/training of nursing students.	
Brief outline of the course: Simulation as an educational method in nursing and allied health disciplines. History of simulation in education in health disciplines. Integration of simulation into education in health disciplines. The credibility of simulation. Types and methods of simulation. Technical modalities and capabilities of simulations. Application of different types of simulations. Staffing and space required for simulation. Methodological and technical preparation of the simulation. Documentation in simulation. Structure of the simulation. Pre-briefing/briefing. Simulation. Debriefing. Verification of students' knowledge and skills through simulation (OSCE). Evaluation of the simulation. Standards and standardization of simulations.
