COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: KH/ ODZP/13	Course name: Dissertation Thesis Defense
Course type, scope and the method: Course type: Recommended course-load (hours): Per week: Per study period: Course method: present	
Number of ECTS credits: 30	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: Obtaining the required number of credits in the prescribed composition according to the relevant UPJŠ study regulations.	
Learning outcomes: The dissertation verifies the ability and readiness for an independent scientific and creative activity in research in the field of study of Slovak history in accordance with the expectations of the relevant qualification framework and the profile of the graduate. The student demonstrates the ability and readiness for an independent theoretical and creative artistic activity, for solving theoretical and practical problems with an interdisciplinary approach, and for drawing a conclusion. The scope of the dissertation is set at 80 - 150 standard pages. Details are determined by Directive no. 1/2011 On the basic requirements for final theses, rigorous theses and habilitation theses, their publication and their availability during their retention of originality control valid for Pavol Jozef Šafárik University in Košice and its affiliated bodies. The dissertation has the character of a scientific work. It is developed based on continuous research of the student and with the use of rich documentary material, as well as scientific methods. It must meet the criteria of a good research practice defined in the Rector's Decision no. 21/2021, which lays down the rules for assessing plagiarism at Pavol Jozef Šafárik University in Košice and its affiliated bodies. Fulfillment of the criteria is verified mainly in the training process and in the process of the thesis defense. Failure to do so represents grounds for disciplinary action.	
Brief outline of the course: Presentation of the results of the dissertation, answering the questions of the opponent (s) and answering the questions of the members of the examination commission.

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: ÚGE/ GTHV/18	Course name: Geoinformation technologies in historical research
Course type, scope and the method: Course type: Lecture / Practice Recommended course-load (hours): Per week: 2 / 2 Per study period: 28 / 28 Course method: present	
Number of ECTS credits: 5	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: The evaluation is based on the combination of a continuous assessment in practicals and a final examination test. The continuous assessment is performed during the study part of the semester using work on assignments (30%-share in total result). The credits will be awarded to a student who is successful in each evaluation segment at 50% success level (E grade).	
Learning outcomes: This course introduces students to the principles and applications of geospatial technologies in collection of data and production of thematic maps for historical research. They will gain practical skills in using the equipment and softwares in digitalisation of documents including paper maps. They will become familiar with data collection methods using GPS/GNSS, UAV and laser scanning as well as production of digital thematic maps using ArcGIS software.	
Brief outline of the course: Lectures: Introduction to geographic information systems – basic definitions and terms. Historical maps in the territory of Slovakia, their use in historical research. Principles of digital representation of territory in GIS (raster, vector format), coordinate systems. Large format scanners, scanning paper documents and georeferencing. Collection of data using GPS, UAV, LiDAR. Creation of geo-tagged photographs and images. Basic principles of cartographic outputs - creation of thematic maps in GIS. Maps on the Internet, Google Maps, Google Earth, OpenStreetMaps, 3D city model. Practical: Introduction and operations in ArcGIS software, working with files, attribute tables, import/export of data, definition of coordinate system, principles of visualisation of point, line and areal phenomena, creation of maps. Working with GPS instruments, UAV and terrestrial laser scanning. Processing digitised historical maps, creation of 3D city models.

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: KH/MMHV/10	Course name: Methodology and Methods of Historical Science
Course type, scope and the method: Course type: Recommended course-load (hours): Per week: Per study period: Course method: present	
Number of ECTS credits: 10	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: Fulfillment of conditions and participation in classes and/or individual consultations. Elaboration of a semester work - according to the teacher's instructions.	
Learning outcomes: After completing the course, the doctoral student has the prerequisites to better manage research and write their own dissertation in terms of its structure, schedule and formal arrangements with the emphasis on the methodological and methodological aspects, and has a knowledge of directions and trends in the contemporary historiography. The student demonstrates deep knowledge of the theory and methodology of historical research, is able to comprehensively perceive socio-historical and interdisciplinary context, can read, analyze and interpret primary and secondary historical sources at the expert level, in several languages and using modern technologies, and formulate their own conclusions and bring original knowledge. Following this, the student is able to lead a cultural dialogue and an open discussion about historical research and its significance for today's society. He/she is able to understand resources and independently create and communicate a scientific text to the professional and general public. He/she knows and follows the principles of the scientific work ethics.	
Brief outline of the course: What is history? The problem of historical fact (Relationship between past facts and historical facts; historical fact and scientific historical fact). An "Objectivist" and a "subjectivist" (relativistic) approach in history research. (Historical retrospective). A relationship between "Objective" and "subjective" in the historical picture. Presentism (historicism?) in world historiography. Presentism in Slovak historiography. The relationship between history and the present as a methodological problem. The relationship between historicism and historicism in historiography (interpretation of concepts). The problem of "education" by history in a democratic society. Methods and techniques of historical work. Source and non-source sources of historical knowledge.	

The relationship between general and regional history.
Analysis and synthesis in historical work; general and unique in history.
Determinism - indeterminism in history; the relationship of chance and necessity in history.
The problem of periodization of history.
The importance of history in shaping the historical consciousness of society.
The importance of regional studies in the research of general and national history.
Critique and interpretation of sources.
Forms and types of historical publications.

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: KPE/ PgVU/17	Course name: Pedagogy for University Teachers
Course type, scope and the method: Course type: Lecture Recommended course-load (hours): Per week: Per study period: 28s Course method: distance, present	
Number of ECTS credits: 5	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: 1. Development of a teaching diary—100% 2. Compulsory active participation and attendance in accordance with the Study Regulations.	
Learning outcomes: After completing the course, the student will acquire knowledge, skills, and competencies, i.e., will be able to: Knowledge Define and apply basic didactic principles, methods, forms, and tools in the teaching process of university-level professional subjects. Identify and specify educational procedures of a university teacher aimed at effective teaching management, pedagogical diagnostics, and assessment of learning outcomes. Recognize different approaches to pedagogical evaluation and their impact on improving the quality of the educational process at the university level. Skills Implement effective educational methods and techniques into the teaching of professional subjects, tailored to the needs of university students. Conduct pedagogical diagnostics, assess students' progress, and apply appropriate evaluation methods to improve learning outcomes. Analyze and reflect on one's own teaching process, identify areas for improvement, and enhance the teaching of professional subjects, including the rationalization of the time and content structure of teaching. Present specific proposals for improving the teaching process, including the use of new technologies and innovative pedagogical approaches. Competencies Confidently and effectively manage the teaching of university subjects, applying educational competencies that consider the specifics of higher education. Critically reflect on one's own pedagogical practice and the learning outcomes of students to improve teaching methods and achieve a higher quality of the educational process. Apply innovative solutions to streamline and optimize the teaching process, aiming to increase the engagement and success of university students.	
Brief outline of the course: The personality of a university teacher. Teaching styles. Student in university education. Student learning styles. Possibilities of adapting teaching styles and student learning styles. University teacher–student interaction and communication in the teaching process. Pedagogical competencies	

of a university teacher. Didactic analysis of the curriculum; teaching materials and textbooks. Forms of university teaching. Methods of university teaching. Verification methods and student assessment. Creation of a didactic test. Designing university teaching process. University teacher self-reflection.

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: KH/ Dpc/18	Course name: Project Activity
Course type, scope and the method: Course type: E-learning Recommended course-load (hours): Per week: Per study period: 28s Course method: present	
Number of ECTS credits: 5	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: Preparing a proposal of a research project within one of the national or international grant calls according to the instructions of the teacher and the supervisor.	
Learning outcomes: After completing the course, the doctoral student is able to formulate a new specific research problem based on knowledge of the state of arts, methodology and resources, including the design of its solution according to the standards of the department and the requirements of the basic or applied research. He/she has the competence to evaluate their own strengths and weaknesses, and to plan such work strategies for themselves and their team, which are appropriate for reaching the set goals.	
Brief outline of the course: What is a research project and how to prepare a quality proposal. Project life cycle - initial idea - searching for its financing options - preparation and submission of the application - management of the funded research project (including its effective implementation, dissemination of research results and their communication to different types of audiences, reports and communication with the grant agency). Possibilities of obtaining support for research projects through national grant agencies. Possibilities of obtaining support for research projects through international grant agencies. Preparation of one's own grant project proposal for one of the current calls.

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: KPPaPZ/PsVU/17	Course name: Psychology for University Lecturers
Course type, scope and the method: Course type: Lecture Recommended course-load (hours): Per week: Per study period: 28s Course method: distance, present	
Number of ECTS credits: 5	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: Case study, micro-output, its analysis Current modifications of the course are listed in the electronic bulletin board of the course.	
Learning outcomes: After completing the course, students will gain knowledge that allows them to understand, summarize and explain selected psychological knowledge from cognitive psychology, emotion and motivation psychology, personality psychology, developmental, social, educational psychology and health psychology. They will acquire skills to apply the above psychological knowledge necessary for the professional, competent performance of university teaching practice of doctoral students to create and implement the teaching of a professional topic with applied psychological knowledge and develop the competences to create and implement teaching of a professional topic with the application of psychological knowledge, as well as to evaluate their performance and the performance of their classmates in the form of constructive feedback.	
Brief outline of the course: The content of the course is based on selected psychological knowledge of cognitive psychology, psychology of emotions and motivation, personality psychology, developmental, social, educational psychology and health psychology. Teaching is realized by a combination of lectures with interactive, experiential methods, discussion, open communication with mutual respect, support of independence, activity and motivation of students. Syllabus: University teacher and his work in the teaching process with a focus on: teachers in relation to themselves (cognitive, personal, social and competencies in the use of methods), in relation to students and as part of the teacher-student relationship on the basis of selected areas of cognitive psychology, psychology of emotions and motivation, developmental psychology, social psychology, educational psychology and health psychology with application to the university environment

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: KH/ Dzc_zb/15	Course name: Received Citations - Edited Volumes
Course type, scope and the method: Course type: Recommended course-load (hours): Per week: Per study period: Course method: present	
Number of ECTS credits: 4	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: Citation in an edited volume or other publication – except of a scientific journal or a monograph (except for self-citation, while the author's share of the cited document is at least 50%).	
Learning outcomes: Obtaining a citation demonstrates broad and very well founded scientific knowledge in the research area, based on the ability to formulate research questions, and to reflect on a scientific problem in a way that generates new knowledge. At the same time, the citation in the indexed source demonstrates the competence to communicate new knowledge, which is a significant contribution to the knowledge of human history, at the highest expert level.

COURSE INFORMATION LETTER

University: P. J. Šafárik University in Košice	
Faculty: Faculty of Arts	
Course ID: KH/Dsd1/15	Course name: Slovak History in the Context of European History I
Course type, scope and the method: Course type: Recommended course-load (hours): Per week: Per study period: Course method: present	
Number of ECTS credits: 8	
Recommended semester/trimester of the course:	
Course level: III.	
Prerequisites:	
Conditions for course completion: Participation in classes or consultations in accordance with the study regulations and instructions of the teacher and the supervisor. Written work in agreement with the teacher and the supervisor.	
Learning outcomes: The doctoral student will gain and demonstrate deep and scientifically based knowledge of important events and processes in the history of Slovakia in the context of wider European or world developments in socio-political, economic and cultural history, as well as in the field of Slovak and world historiography. He/she demonstrates understanding and expertise in one or several periods of the history of Slovakia. He/she will be able to use scientific knowledge from the history of Slovakia in scientific research in the field of historical sciences at the interdisciplinary level, and thus interpret selected scientific problems. He/she will have the competence to formulate scientific problems from the history of Slovakia in a broader international context, to solve them, to communicate adequately and, ultimately, to bring new original ideas.	
Brief outline of the course: Individually, depending on the topic of the dissertation, and according to the instructions of the teacher and the supervisor.	
Recommended literature: Individually, depending on the topic of the dissertation, and according to the instructions of the teacher and the supervisor.
